This is Erika.
I know her
for ages.

We went to the
same school and
have been friends
ever since...

And with
friends I mean
she's happy and
I'm in the friend
zone...

But yesterday
I downloaded this
app...while I was drunk...
and it's probably not
gonna work... but it did
cost me 5 bucks! So, I'm
fucking gonna try it out!

Next

Okay fine,
sure. Hit
me.

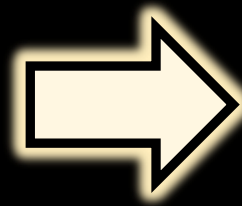

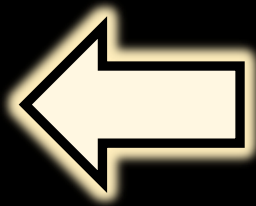

Watch
the birdy.

Next

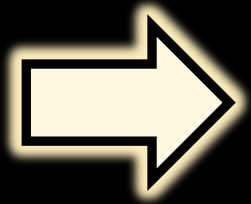

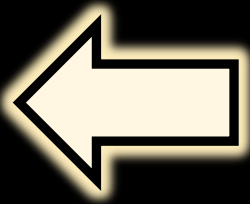

Now what
to do with
her?...

Look at her pic

Hmm
This option is

A woman with short reddish-brown hair is sitting on a windowsill. She is wearing a blue lace bikini. The room is lit with warm, golden light from the window. In the background, a cityscape is visible through the window, including a prominent skyscraper. A speech bubble is positioned to the right of her head, and a 'Next' button is in the bottom right corner.

You know, if
it takes that
long, the UI
must be kinda
Crap.

Next

HellooO?
You still
with me?

Next

Are you
staring at
me?

NO!
Sorry. Just
comparing the
result with the
original...

Next

A woman with red hair, wearing a white dress, is shown from the chest up. She has a surprised expression. The background is a blurred indoor setting. Overlaid on the right side of the image is a digital interface with several speech bubbles and a button. The speech bubbles contain text expressing surprise and interest in an app. The button at the bottom right is labeled 'Next'.

Holy
fucking shit!

This App
is the real
deal!

Changing
Erika's clothing
was as easy as
swiping right!

I wonder
what else it
can do!

Next

Can I see the
pic already?

Sorry!
It's not yet
perfect. One
more filter!

O.M.G. The App works! But of course... there are still so many functions I could test... ... if I just had the full version...

The End

Hello, Hexxet here,

Whom would you use such an app on first? 🙄

This is my first approach to a shorter interactive PAI. Also, I've tried some different art style with the AI Engine this time. I hope you liked it. 😊

Note that this has been the Preview Version with a single path. The full version is 75 pages long and contains different outfit choices at the beginning and then 8 different endings showing Erika with various states of breast size and either with her normal hair or as a blonde.

More PAIs and of course my regular 3D Comics can be found on my Patreon and in my shops. (If you are only into the PAIs you probably want to visit the shops, not the Patreon). Some free PAIs can be found on my homepage.
