Hello, Hexxet here,

This is the **Preview version** of “Welcome to the Master Control Program”. The full version is an interactive story where you decide how to use the MCP and how to change the people around you... or fuck up in doing so :P. Anyway, the preview version only contains 1 Ending/Path out ~29. All but one options have been grayed out on the pages where there are decisions - making the preview version linear.

All girls depicted in this story are changeable/fuckable in the full version except for the girl standing around when going for the elevator.

A woman with long, dark brown hair is sitting at a desk in an office. She is wearing a white, off-the-shoulder, long-sleeved dress with a deep V-neckline and a white choker necklace. She is looking towards the camera with a neutral expression. The background shows a desk with a computer monitor and a framed picture on the wall.

Morning. I have
a meeting with
Mrs. Benson...

Ah, yes. You
are that IT
guy, right?

Go right in.
Mrs. Benson is
waiting for
you.

Next

This is Catharine Benson, my Boss and CEO of the whole company where I work.

Ah, there you are. Please, come in.

You've reported that you were short-staffed down in IT, correct?

Yes, Ma'am.

With Jack on vacation and Erik leaving the company, I'm currently alone down in IT.

Next

Well, I admit that I did not give this problem the attention it deserved so far.

But I've finally hired somebody to help you out.

That's great news, Ma'am!

Next

This is my
daughter,
Clarissa.

She had a year
of computer
something in
school.

And she knows
her way around
Word and
PowerPoint.

Yawn
Hi.

Next

Let me stop you right there. It's high time for Clarissa to get to know the company.

And IT is as good a place as any to start.

Err... ma'am... with all due respect... But that's not really the skillset that...

Next

A woman with long blonde hair, wearing a dark blue suit jacket over a white button-down shirt, stands in an office. She has her hands on her hips and is looking directly at the camera. The office background includes a desk with a computer monitor, a keyboard, and a bulletin board with several papers pinned to it. Five speech bubbles are overlaid on the image, containing text. A green 'Next' button is in the bottom right corner.

So, just let her do something.

I'm sure she can help out somewhere.

She's a smart girl.

Great!
Have fun
Sweetie.

I... Yes ma'am... I'll show her the works...

Next

A short time later. In the basement where the IT department is located. I try to speak to my new assistant...

Next

So... err...
Clarissa. Let's
see what I have
for you...

Do you know
anything about
Java or C#?

Those are the two
main programming
languages used in
here.

Or do you know
anything about
hardware?

Listen, buddy.
I don't give a
fuck about any
of this.

I don't intend to
lift one finger
around here.

And if you can't
deal with that I'm
gonna tell my mom
that you guys are
just lazing around
down here all day.
Comprendé?

You'd better
stop lazing
around and
answer that
phone.

I... err...
that...

The audacity!

But what can I do? Her mother does not appreciate the IT department in the slightest, even though it's us keeping this company secure and running in the cyber age! So, I don't need to second guess whom she'd believe... and I do what I usually do... I pick up the goddamn phone...

Simmons here. My Computer is not working.

Yes!

Stop bullshitting me and get your ass up here, ASAP!

Hello, IT. How can I help you?

Is it turned on?

Are you sure it's plugged in?

sigh
Yes, ma'am. I'll be with you in a moment.

I better get going.
Miss Simmons is rather impatient when it comes to IT problems...

Though most of the time she is the problem...

Oh, dear.
What am I even doing here?

Gulp
This... must be some sort of AI image program?

Not bad.
That could really be her!

Let's go!

Talk to Clarissa

Okay... I need to go upstairs and have a look at Miss Simmons' computer.

Wanna come with? Get to know the business?

LOL.
I'm good.
Bye bye.

sigh

Let's go!

Frustrated I take the elevator to the upper floors after I lock my PC. It takes a while, and I meet various co-workers who more or less ignore me until I finally arrive in Miss Simmon's Office.

It's what I'm here for.

And don't worry. Company policy covers a 30-minute fuck break.

I stand there dumbfounded as Miss Simmons starts playing with my fly. Stroking my cock through my pants until she fishes it out. It's rock-hard already.

that... Miss

On my way back down to the IT basement suddenly some dude addresses me...

Err...
what?

Yeah... ha-
ha... she...
is...

Yo! Walk of
shame?

Don't worry
man! We've all
been there.

Sometimes work
just gets to you.

Hello, Hexxet here,

This is my second interactive PAI Book. It's a lot different from OF:BF since I really tried to get that master Control program to life... which was a bit hard as it offeres so many options to change reality around you. Therefore, this PAI-Book turned into a lot of Endings with rather short paths (compared to OF:BF).

If this story is liked I might continue from one of the endings onwards 😊.

More PAIs and of course my regular 3D Comics can be found on my Patreon and in my shops. Some free PAIs can be found on my homepage.
