Fembot Factory Tour

The Kalingtons are a noble family playing with the thought of buying a Fembot for household duties. For this purpose, they have booked a tour around the Fembot Factory to inform themselves about this topic...

Featuring

James...	A guy interested in robots... and his stepdaughter
Lucine...	James' wife, Amara's mother
Amara...	James' stepdaughter
Marco...	A handler at the Fembot Factory
Erika...	A fembot and a tourguide at the facotry

And many more robots...

The Kalingtons, with James bringing it up, have decided to get a domestic bot to do the chores around the house. But it's good to inform yourself before adding a new "being" to your household so they have booked an info-tour at the local Fembot Factory.

Welcome to
"Fembot for you",
creating fembots
at an affordable
price – for daily
use.

Ah, good
morning, Sir.
You must be
the Kalingtons?

You are a
bot too,
right?

Yes. I'm Erika, a
second-generation
model and I will be
your tour guide.

When you are
ready, please
follow me.

First up is our
exhibition area
displaying various
models available.

Wow!

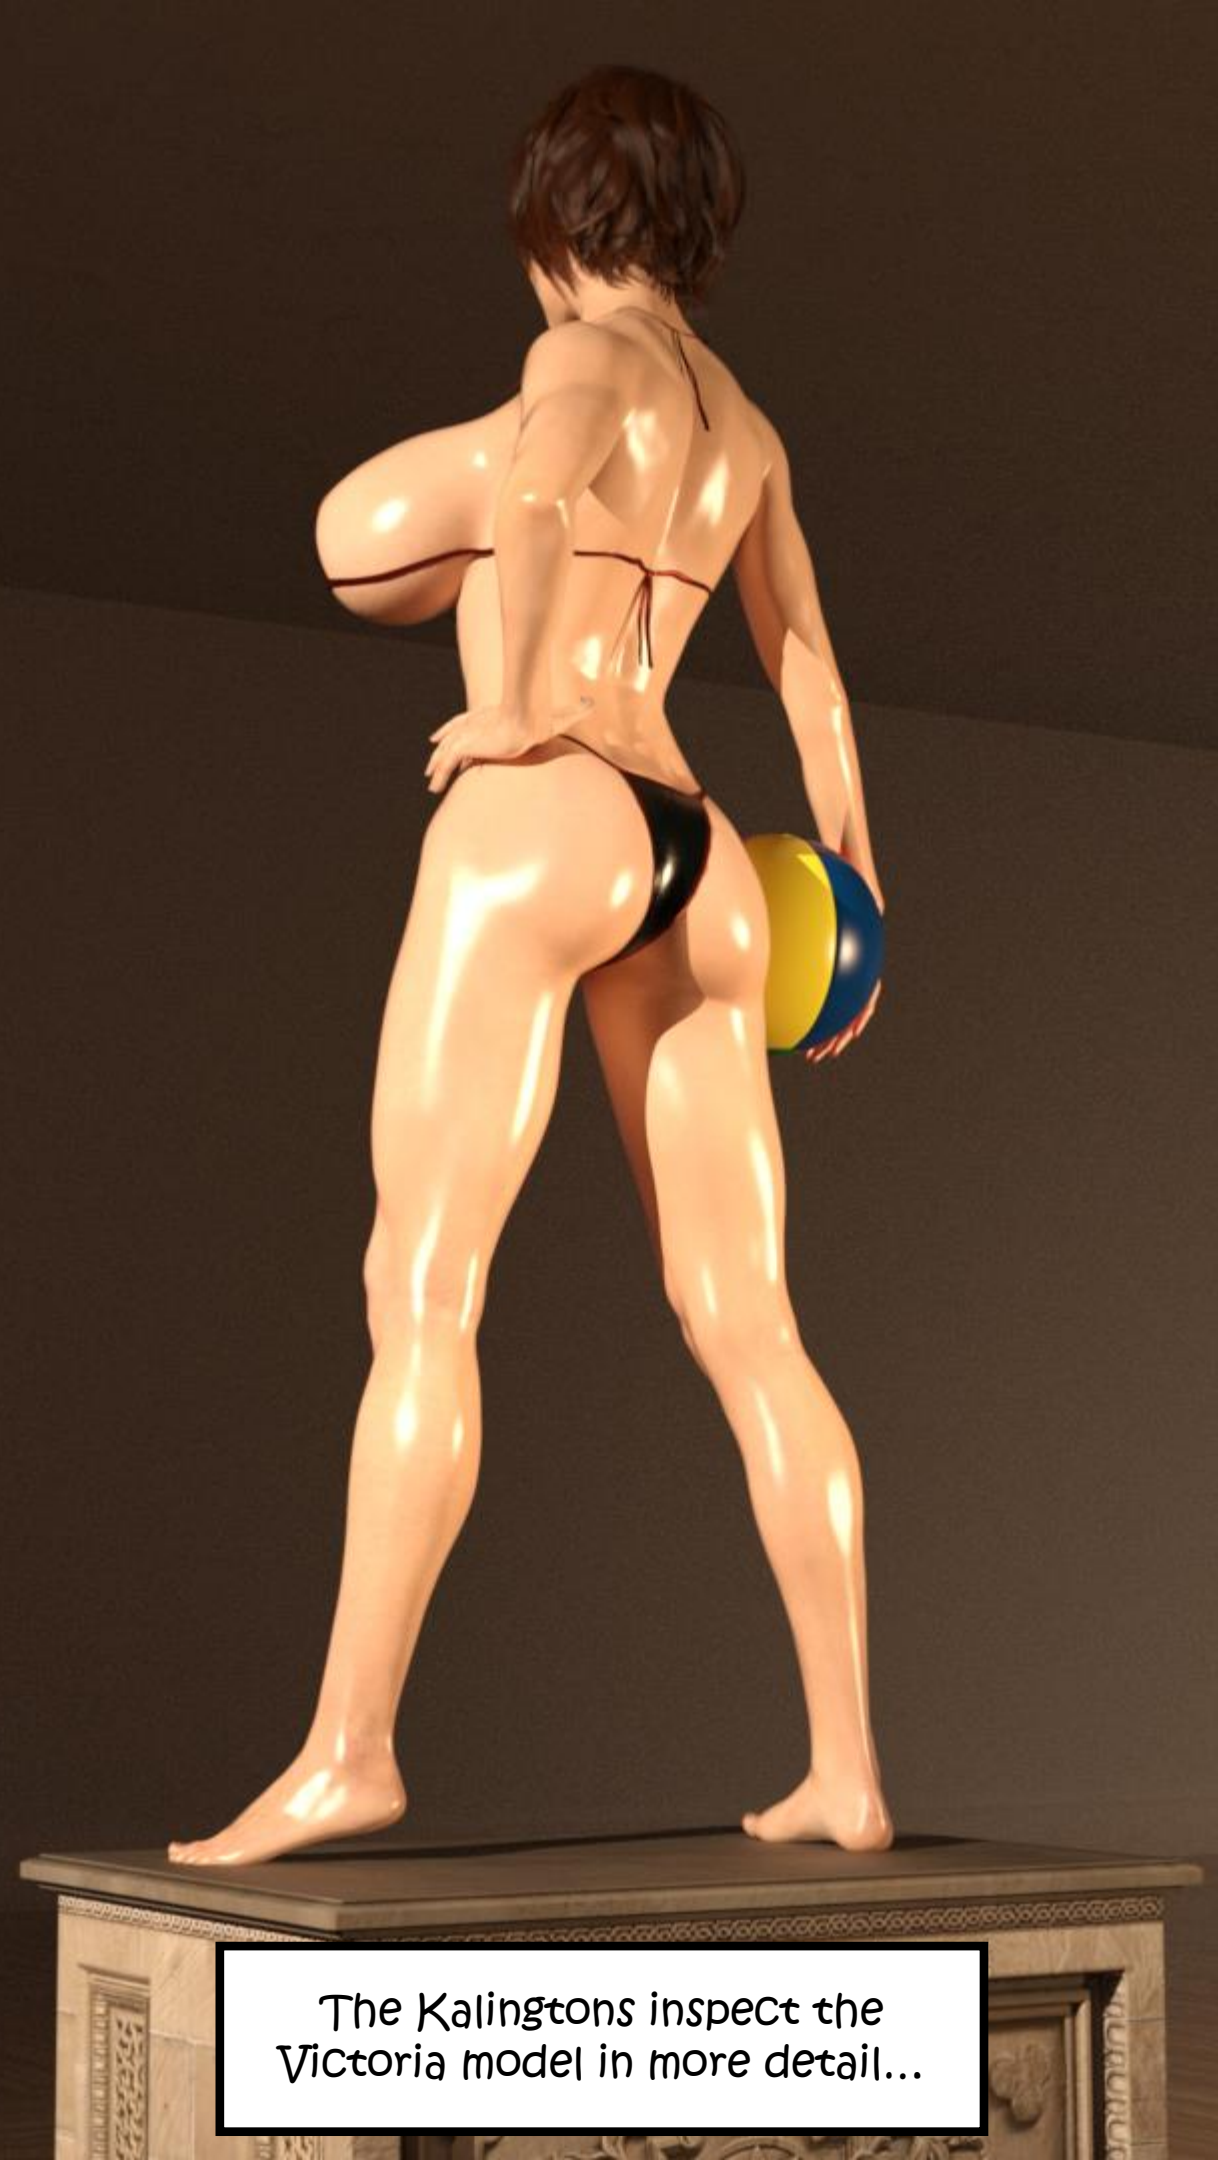

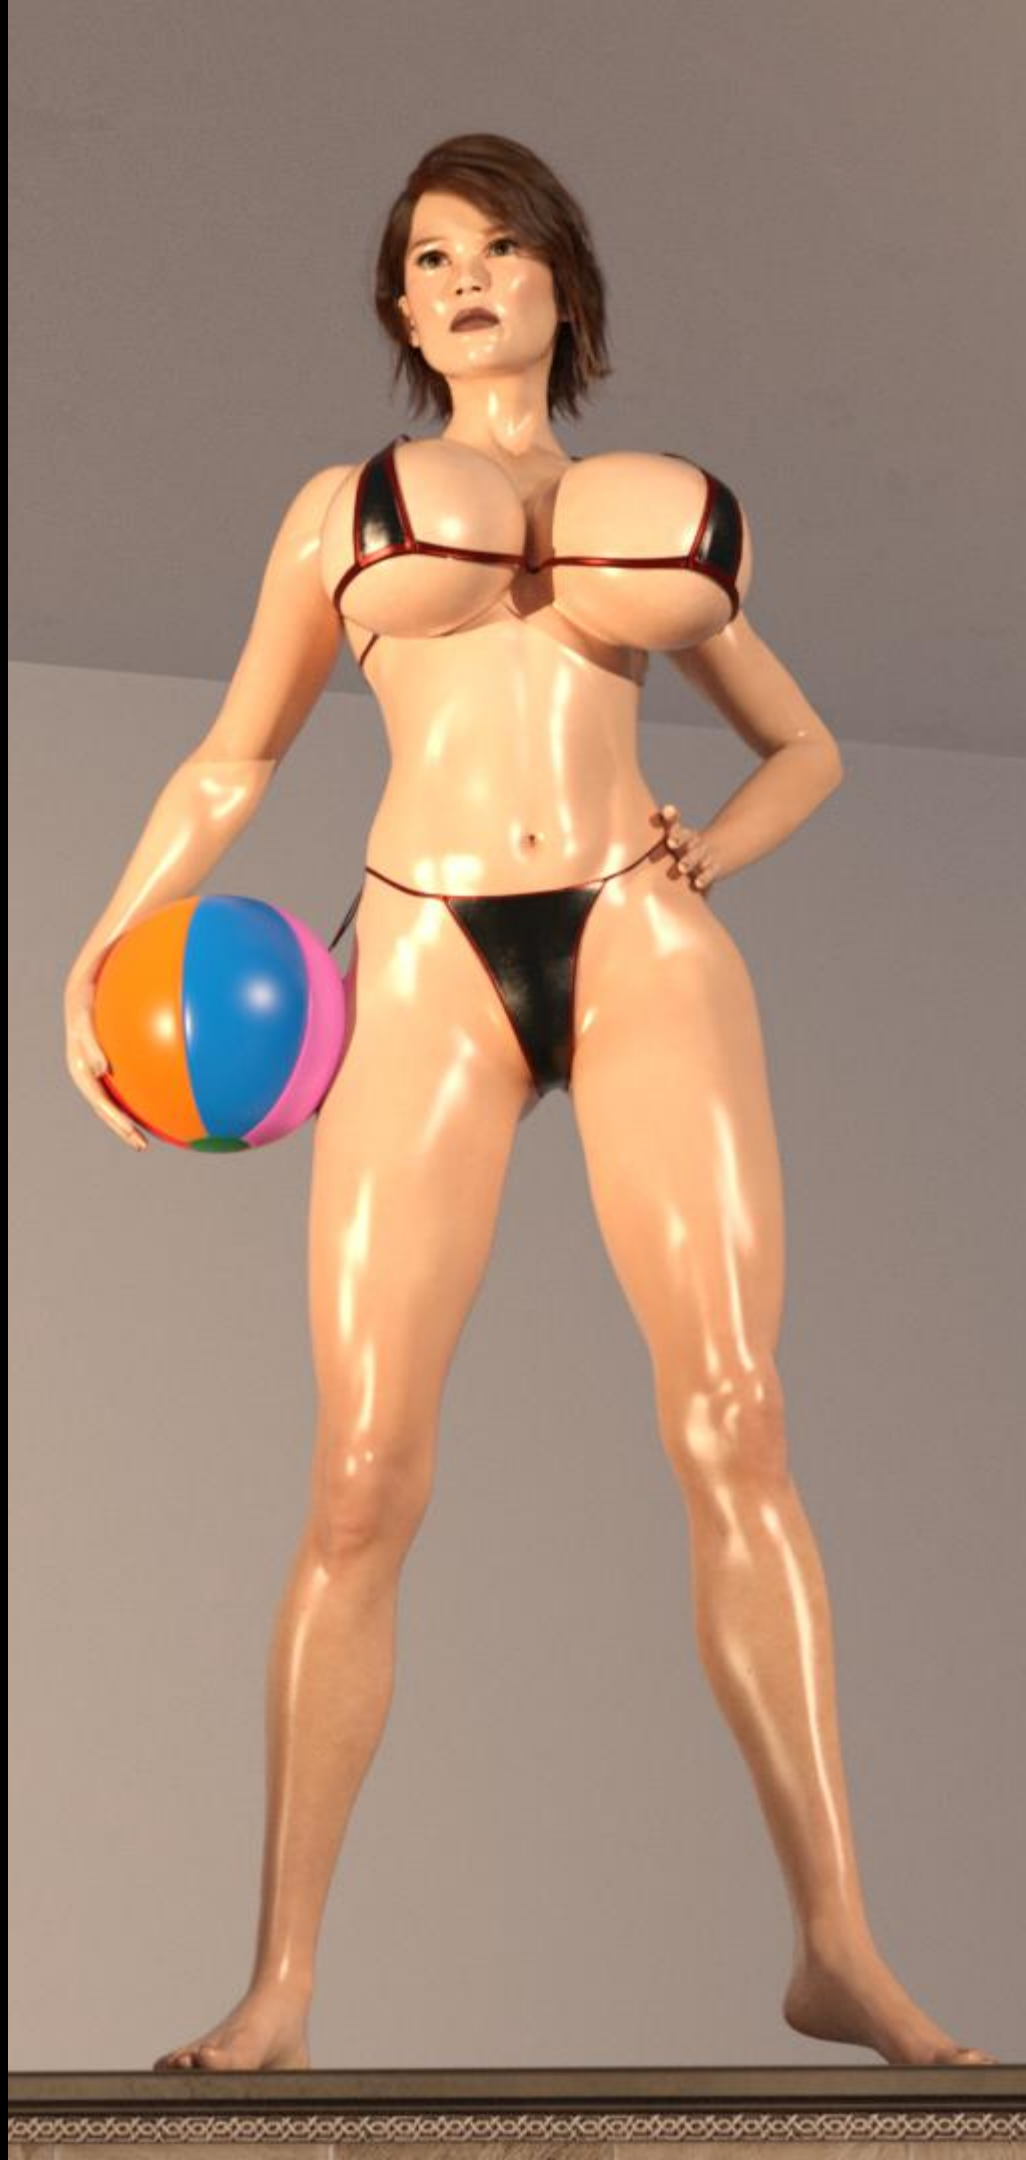

These are all
second-generation
models like myself.
Easily recognized by
our shiny plastic-
like skin.

This is the
Victoria model. It
was designed with
outdoor sports in
mind but can do
other stuff too.

The Kalingtons inspect the
Victoria model in more detail...

Why are
her boobs
so big?

And yes, they
are bouncy and
detachable.

This way she
always has two
spare beachballs
with her.

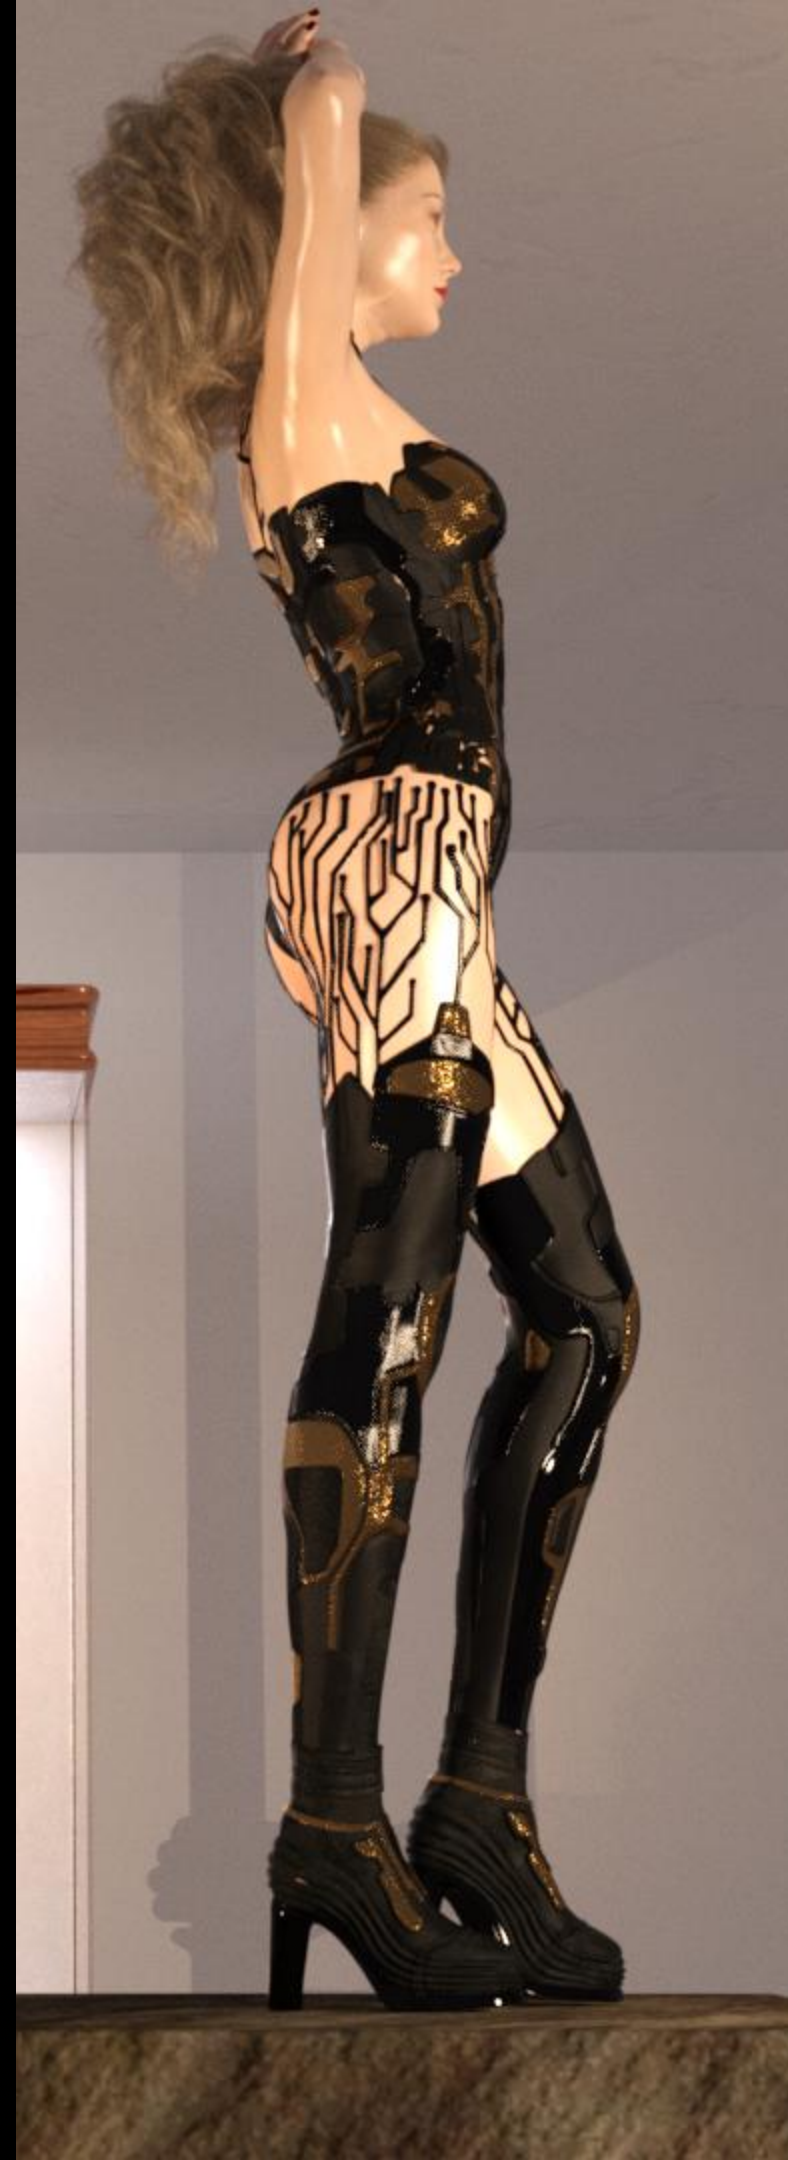

This model is called Layla. She's our best seller from the second generation.

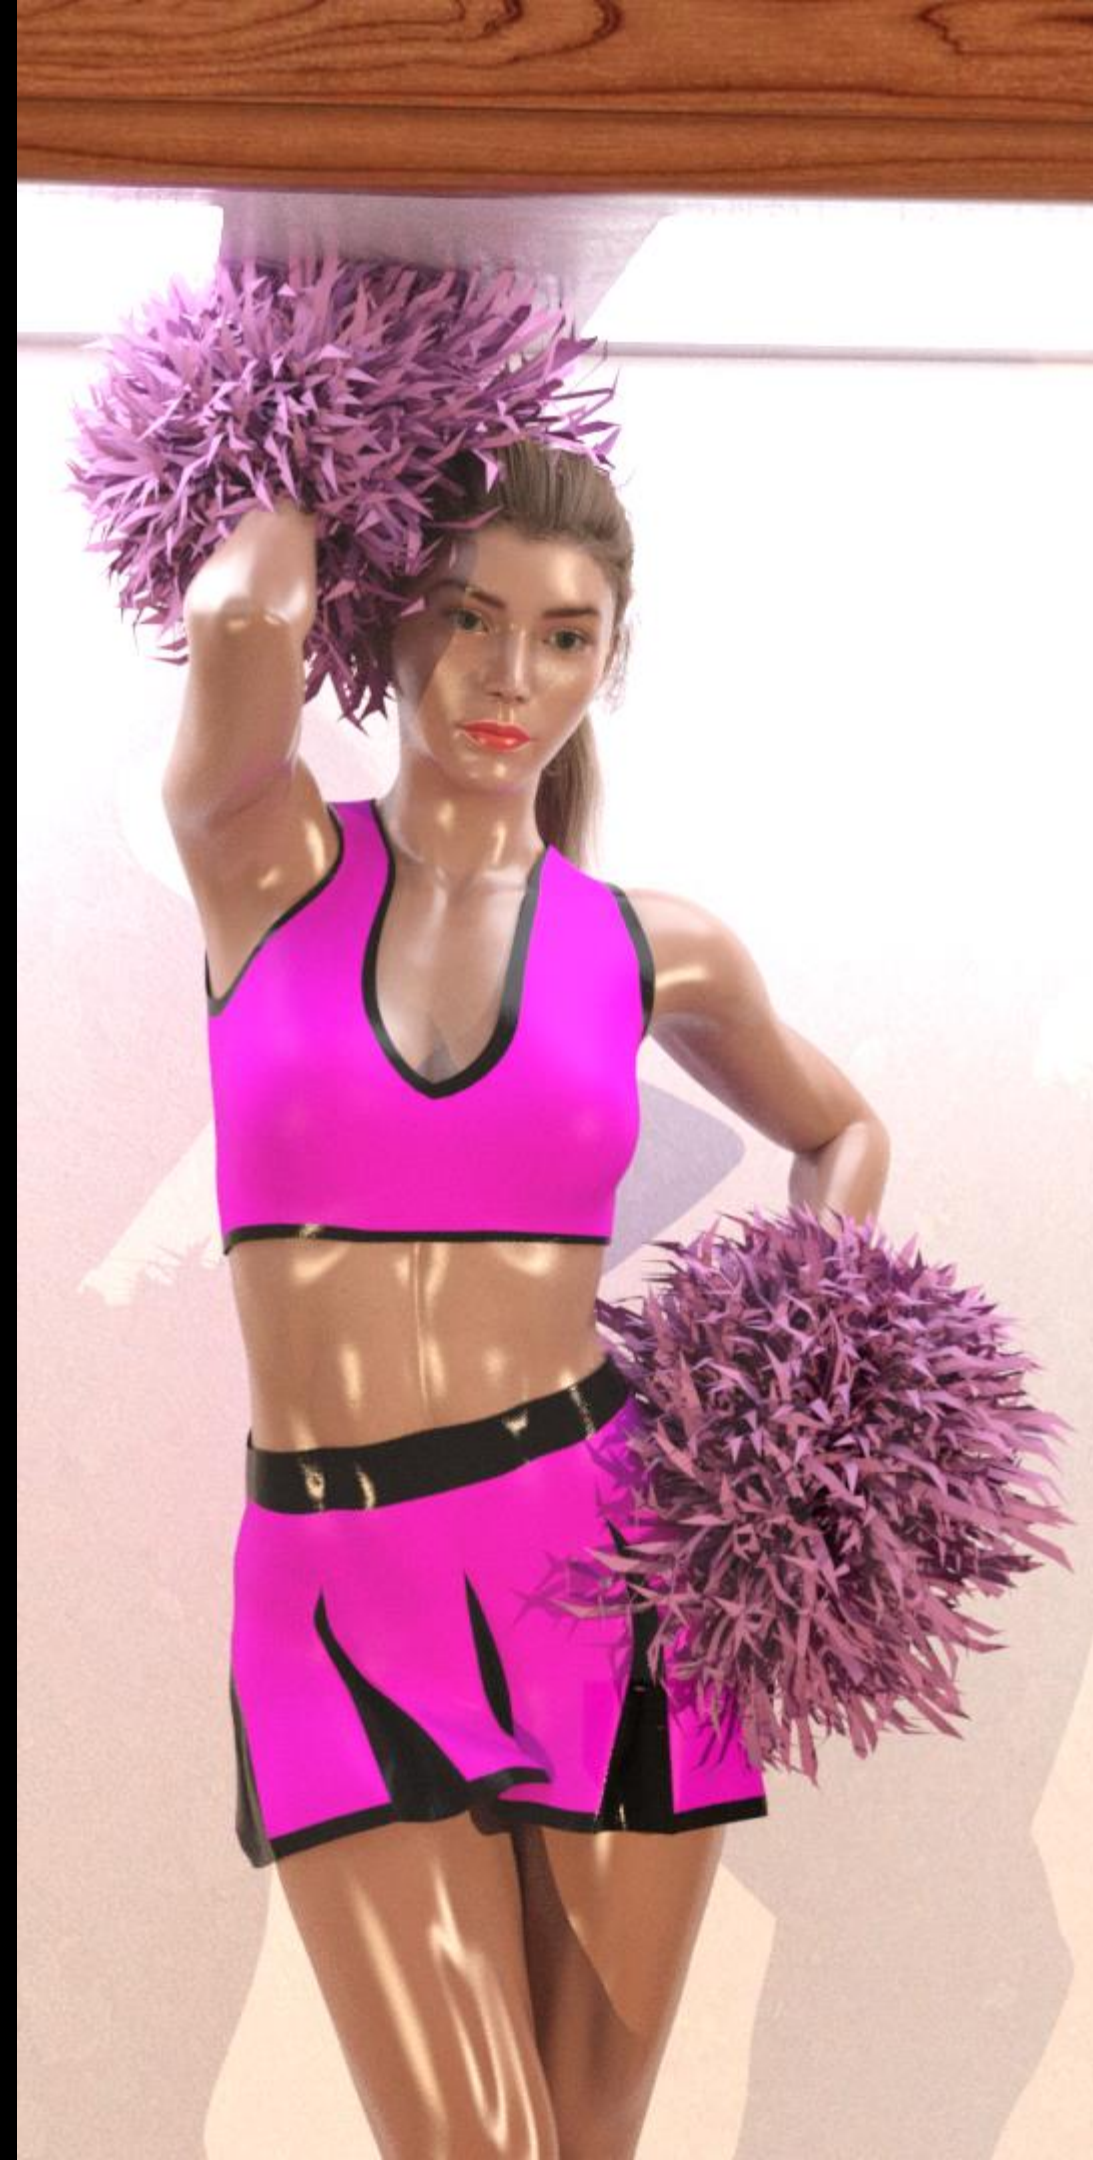

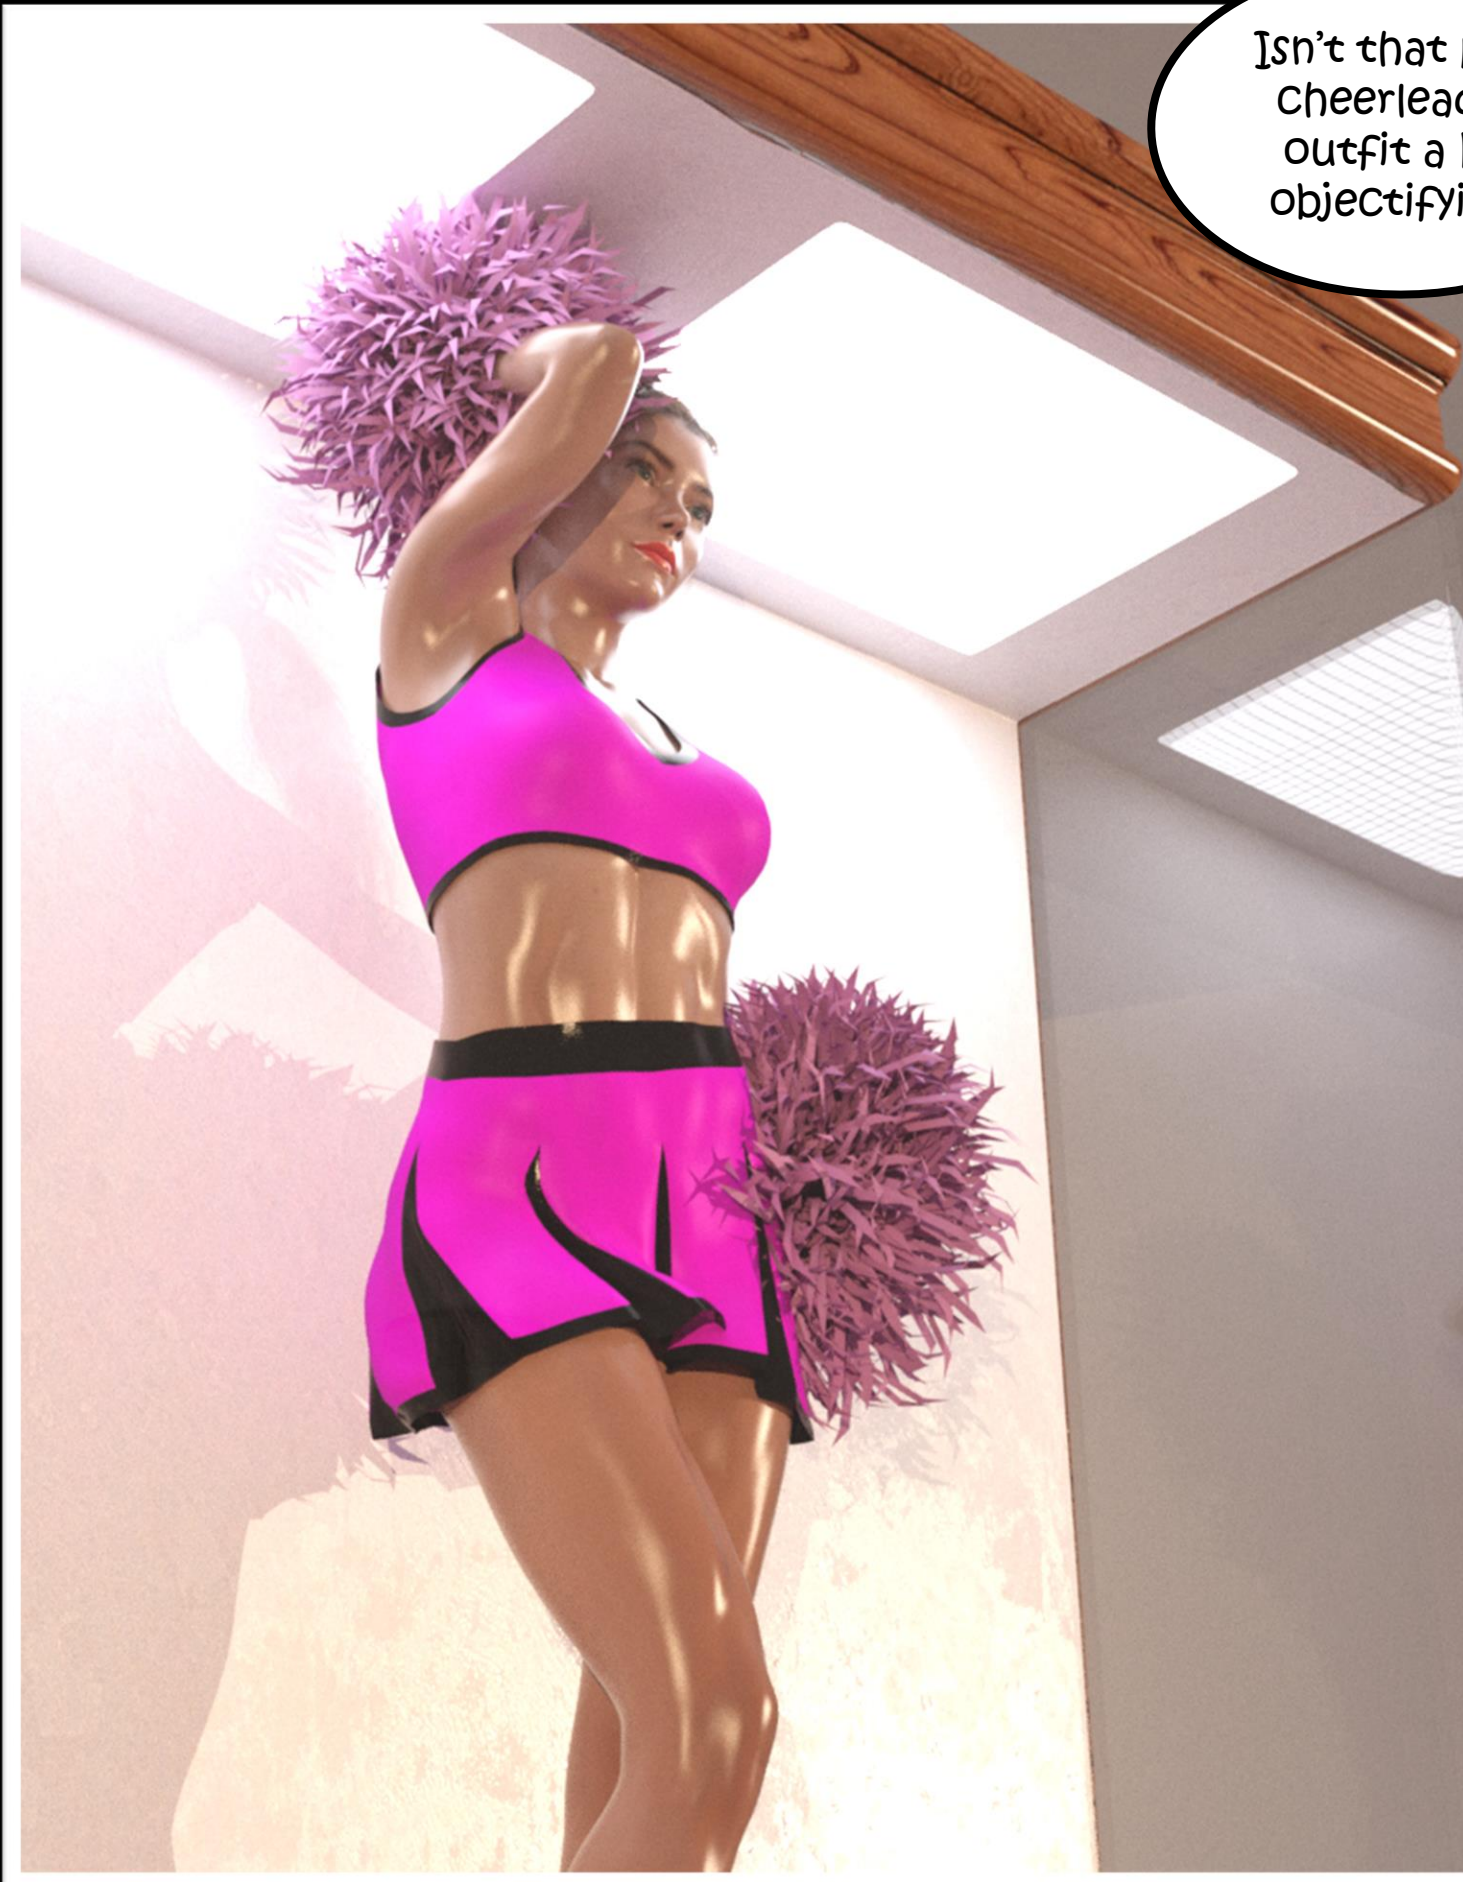

The Layla model was designed as an exotic dancer to replace strippers and go-go-girls but with her diverse programmable skill set she has also found her way into many single male households.

Isn't that pink cheerleader outfit a bit objectifying?

Well, to be fair, she is an object. You can dress up your bot to your likes with normal human clothing however you like. It won't complain.

Now, if you please follow me to the domestic display room.

Here you can see the Norah and the Barbara model at work.

You said you were interested in purchasing a domestic bot, right?

So, this part of the tour should be of most interest to you, I think.

Bots begin domestic simulation 101.

vrooom
vrooom

scrub

scrub

scrub

This bot is not wearing any panties!

It's to showcase they can work under any conditions.

So, they can
clean up. But
can they cook?

Yeah, that
would be quite
important.
Your mom sucks
at cooking...

So true!

Of course, our bots
can cook. However,
you do need to
download the recipes
onto their hard
drives first.

They can also
clean up after
the cooking.

Norah-Bot,
activate cooking
routine 105.

Barbara-Bot,
activate
dishwashing
routine 124.

Command
acknowledged
...

Initiating
Cooking
Protocol 105.

Initiating
Dishwashing
Protocol
124.

I'd advise having her work in heels to make up for the height disadvantage.

As you can see, the Barbara model is one of our shortest models.

The poor bot's udders are resting on the kitchen stand while working.

Cooking
check! Smells
yummy!

What happens if
a bot gets hurt
or malfunctions?

There are barely
any malfunctions
nowadays anymore.

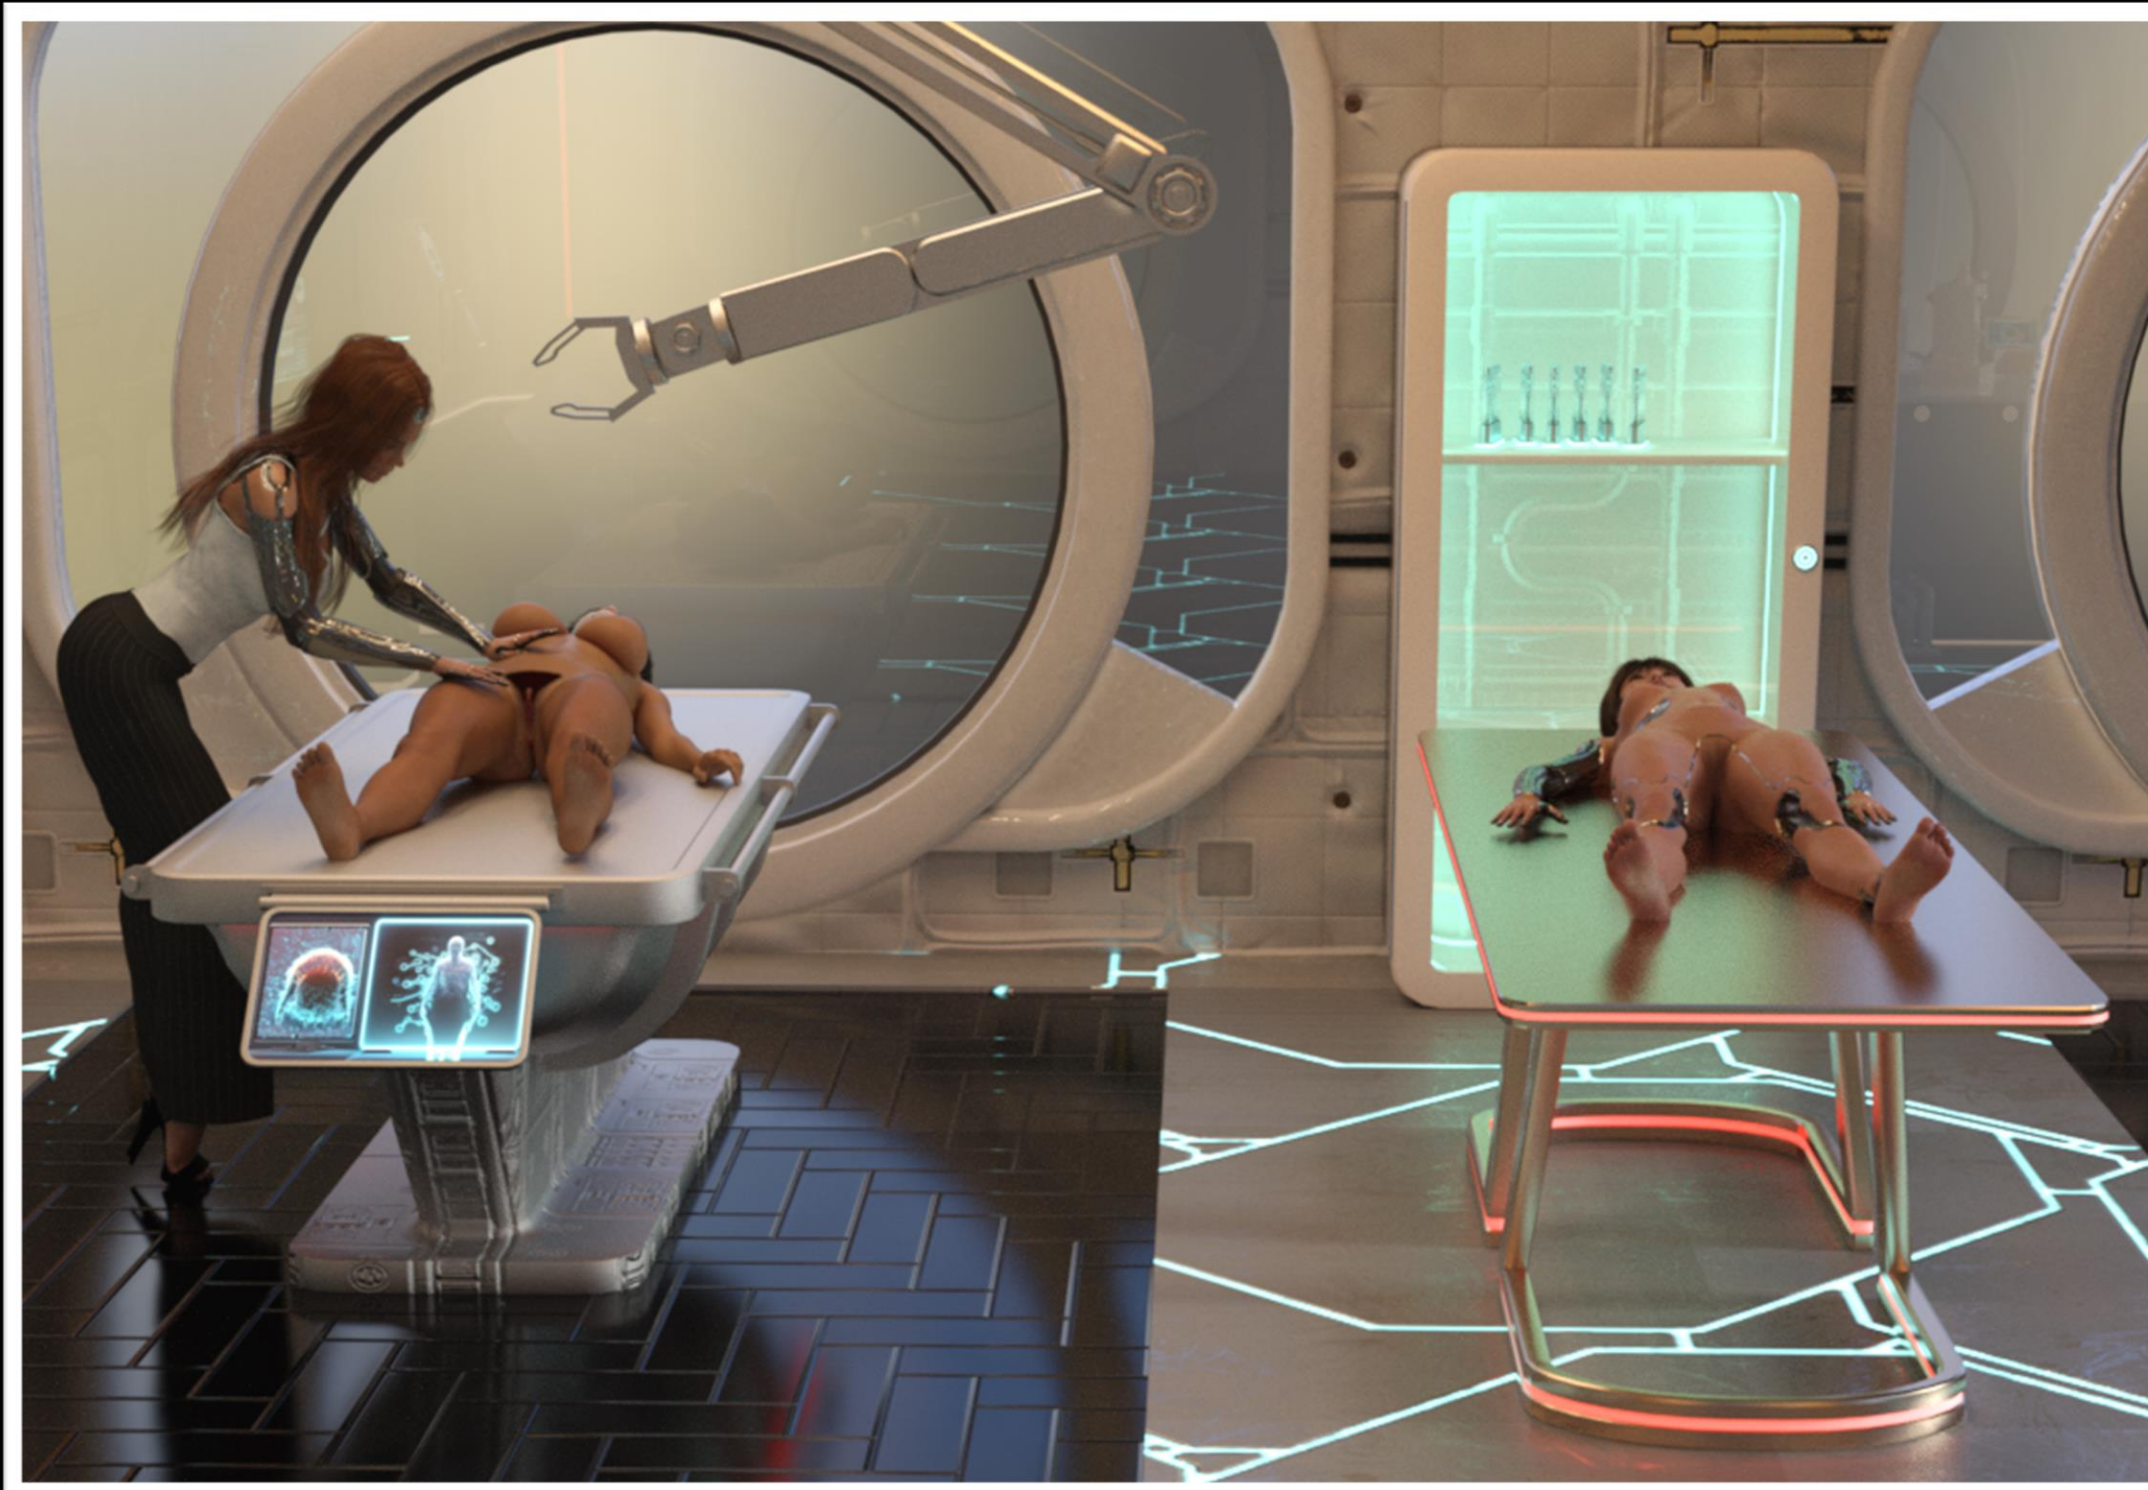

But of course,
physical accidents
can happen.

Each second-
generation bot
comes with a
bottle of silicon.

With that, the
bot can fix minor
bruises and skin
fractures itself.

In case of severe
damage, you will
have to bring your
bot to our repair
center, which we
will be visiting next.

Please,
follow me.

Spare parts are in stock, so we can even replace damaged limbs to get your bot running again ASAP.

This is our repair center. Damaged bots can be brought here. One repair a year is included with a premium membership.

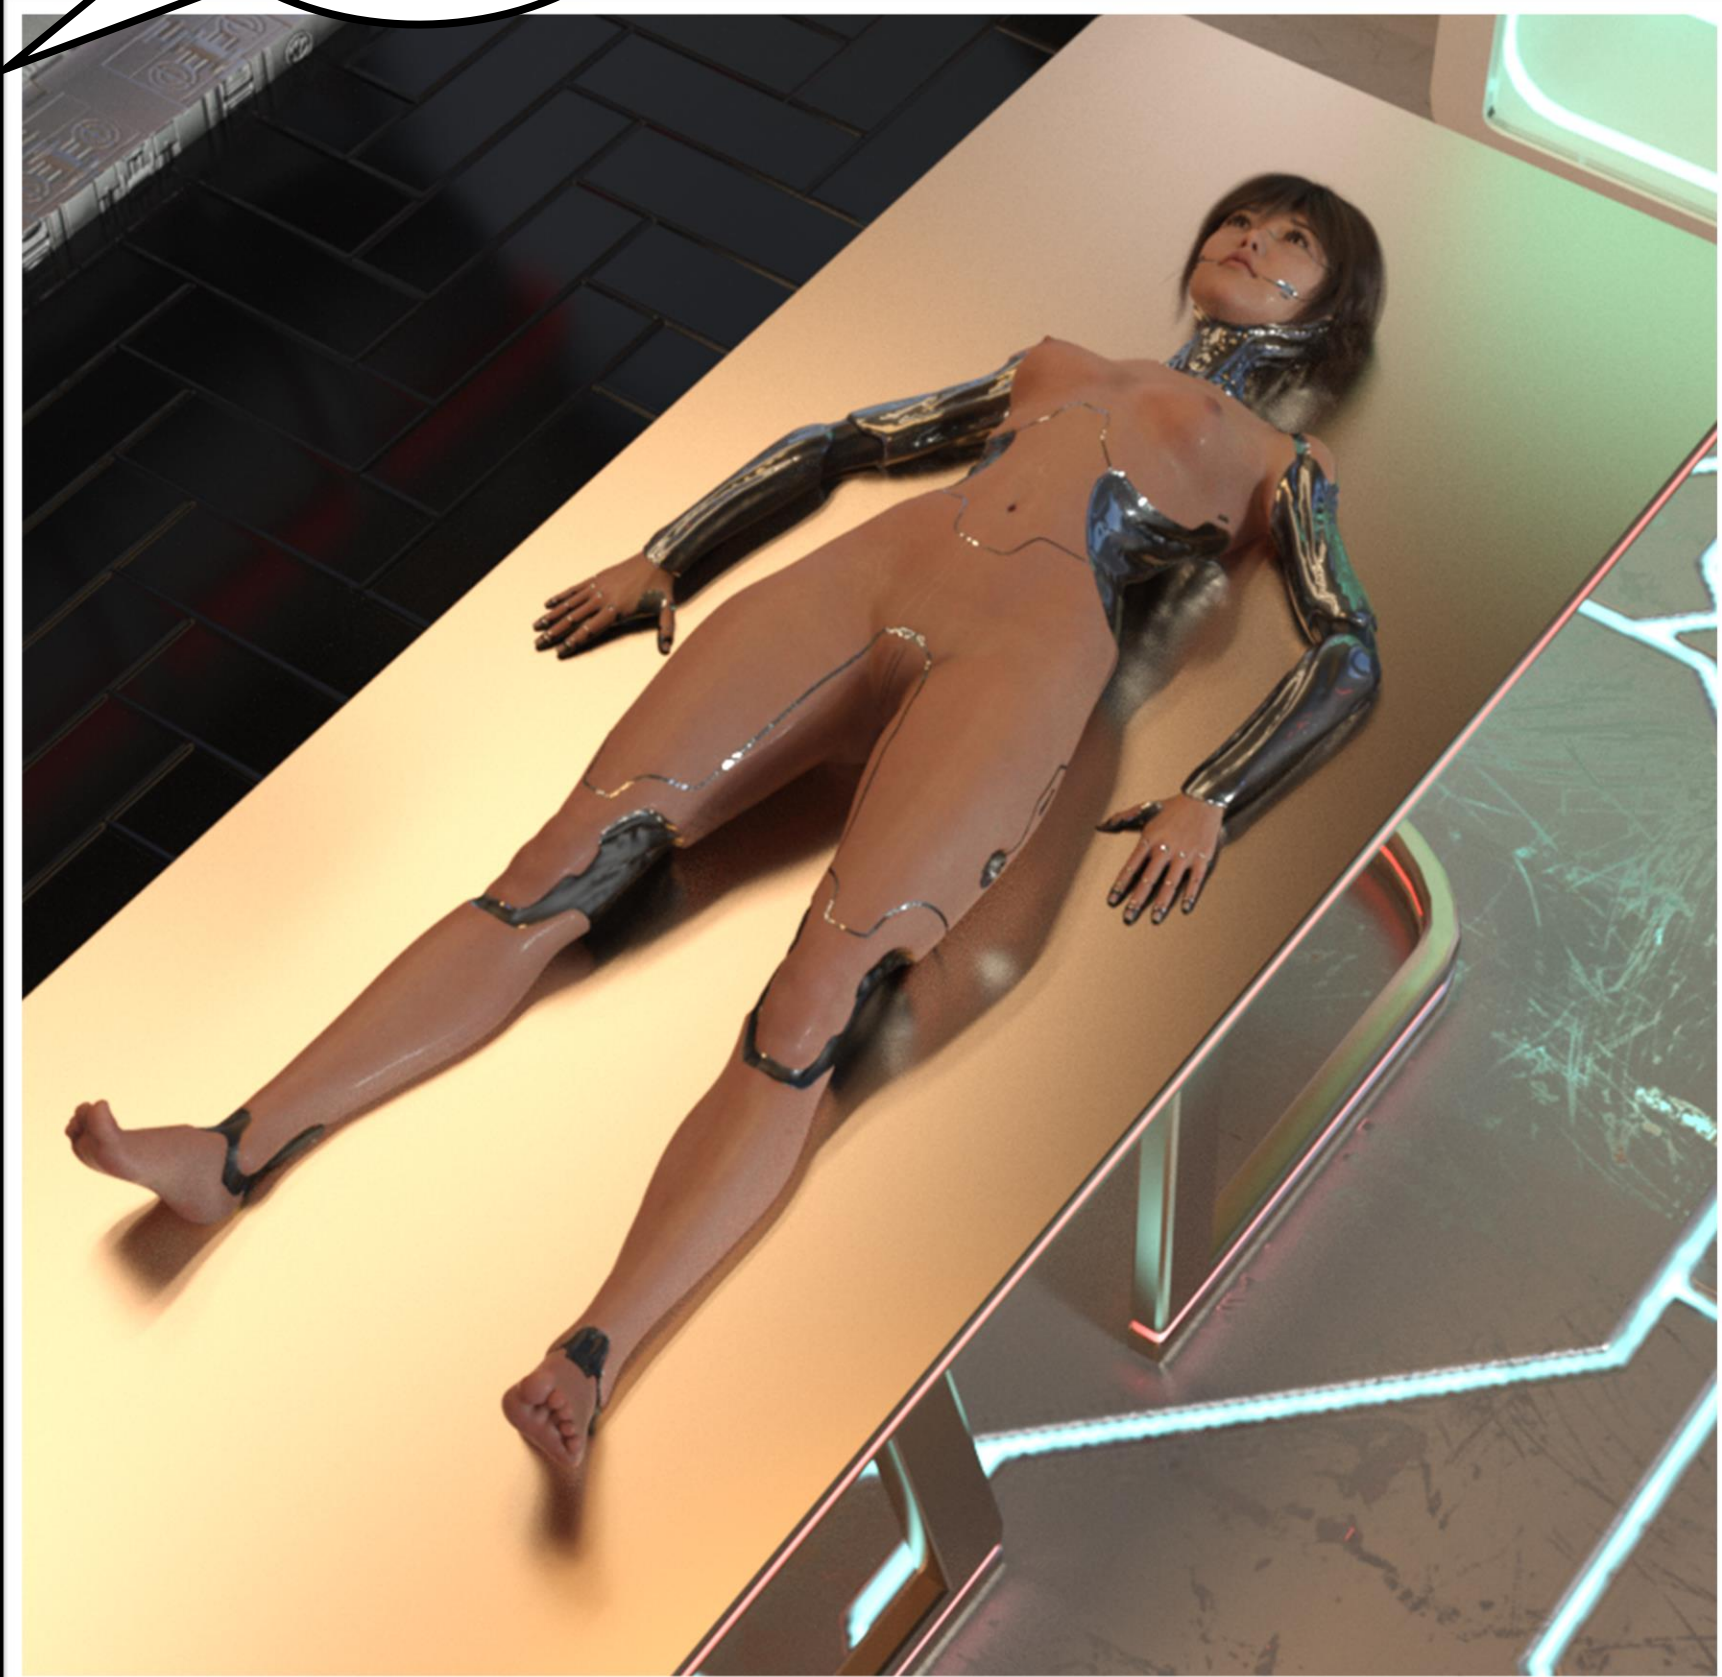

Yup.
Bots are so much
more precise and
faster than humans
when it comes to
standard procedures.

That's a bot
doing the
repairs as
well?

91% of all repairs can and are executed by other bots.

Now for the final
part of our tour,
please follow me
to the bedroom
simulation.

91%?
Wow!

Fascinating.

If bots can do
high-engineering
household chores
should be a piece
of cake.

These are all third-generation models.

You can see that their skin looks way more realistic than mine.

Nice!

Oh, my!

They are all naked!

Alright, bots,
initiate love-making
protocol 669.

Command
acknowledged
...

Inside the bedroom-like presentation room, three third-generation Fembots are standing in the nude. One is another Barbara model, and one is the same model as the tour guide! But in Version 3.0! If it weren't for their slightly glowing ice-blue eyes and monotone voice one could not distinguish them from a human just by looking!

Despite our family's shocked expressions, after affirming the command, the three bots start to interact sexually with one another...

Oh, my!
It's like in
a porno!

Oh, yes.
Oh, yes.

pinch

rub
rub

lick
lick
lick

lick
lick
lick

up at

That's hot!

I don't think we need to see this...

Really?

This is one of our highestrated simulations...

And it is very important as well.

It's statistically proven that new inventions and tools will be used for sexual cases.

Like for example men inserting screwdrivers into their penises.

At "Fembot for you" we embrace the ideology that any interaction with our bots should be safe.

So, our bots must be prepared for situations like these.

"Inserting a screwdriver into your penis"? That's insane! You are not doing that dad, are you?

Of course not! There are special elastic sticks you can buy in the sex shop for that purpose.

It's much safer!

While our family discusses the need for sexual bot education our three bots switch positions and keep lezz-botting out on the bed...

When suddenly another
bot enters the room...

WTF?!

Is this
really
neCassary?

Fuck!
I'm hard!

Under the befuddled stares of our family, the new bot joins the other bots on the bed...

Initializing love-making protocol 669.

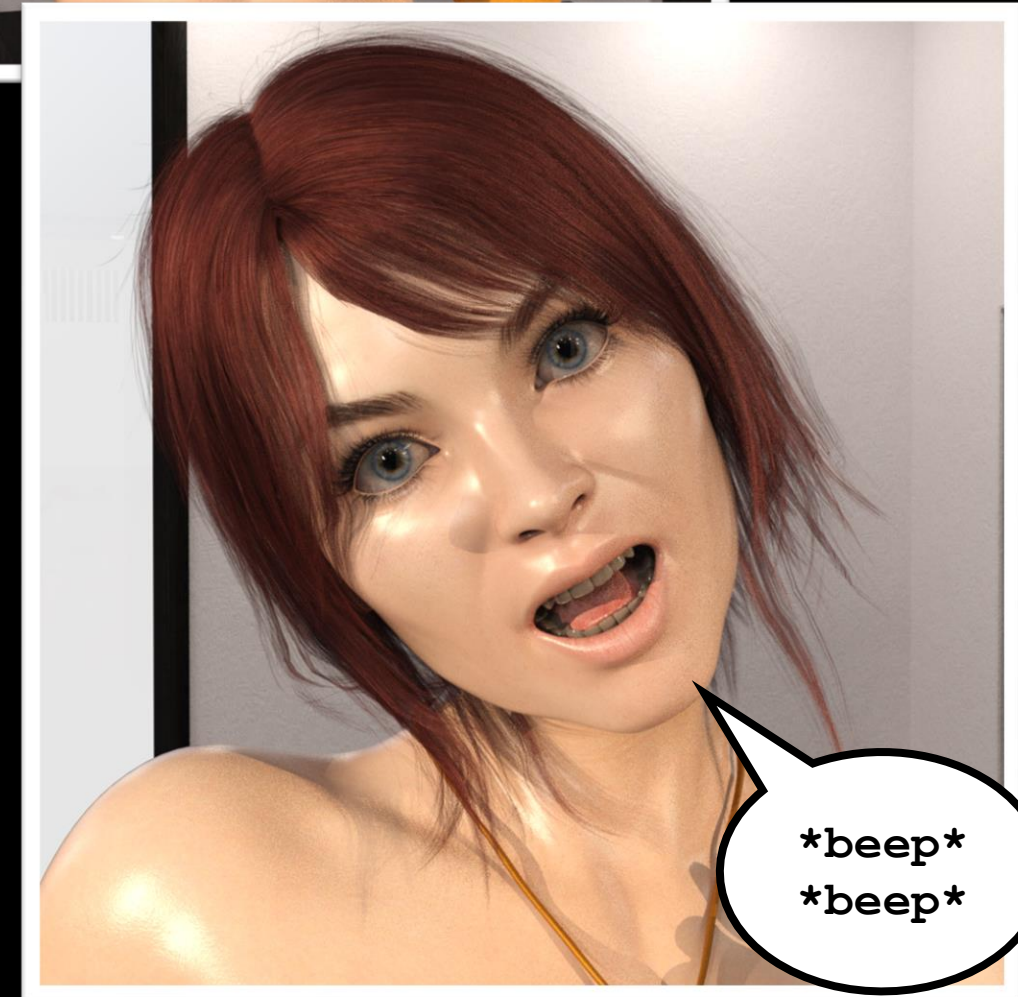

"Fembot for
You" would
never create a
bot after a real
human...

Why have you
created a bot
after my
image?!

But this bot
looks exactly
like me!

Confronted with an unexpected question the tour bot starts to glitch...

Malfunction..
Malfunction..
...

Wh... what's going on?!

It does not take long and
a strangely dressed man
enters the simulation
room.

With the press of a button...

Malfunction...
Malfunction...
...

One can see the light escape
the tour guide bot's eyes...

Shutting
down...

And the bot is deactivated.

Hello.
I'm Marco, a
handler. Real
human flesh.

I just got an
alert from this
bot glitching.

What seems
to be the
problem?

Shaking head

That bot
looks exactly
like me!

You made a
bot copy of
me!

That
one!

point

Which bot are
you talking
about?

Oh, fuck!
That's Mr.
Kalington's
secret purchase!

This should not
have happend.

There must have
been a mix-up
with the training
and display
schedule!

Awkward!

I... admit the facial features show similarities.

But I assure you "Fembot for You" would never create a bot after a real human. It must be a coincidence in the random generation.

Also... you don't mean to tell us that her body looks exactly like yours? After all... then we'd be seeing you naked right now...

Also, there are some... very **huge** differences in the physical area, don't you agree?

I don't want this weirdo or my stepdad looking at my naked body!

I... well... I mean... I guess?

We take it!

Huh?!

We do?

We take it!

Well... I ... err... won't argue with you on this one. Ha-ha.

Just imagine my friends when they get served by a humble diligent version of my own daughter during one of my parties.

You can't be
serious,
Mom!

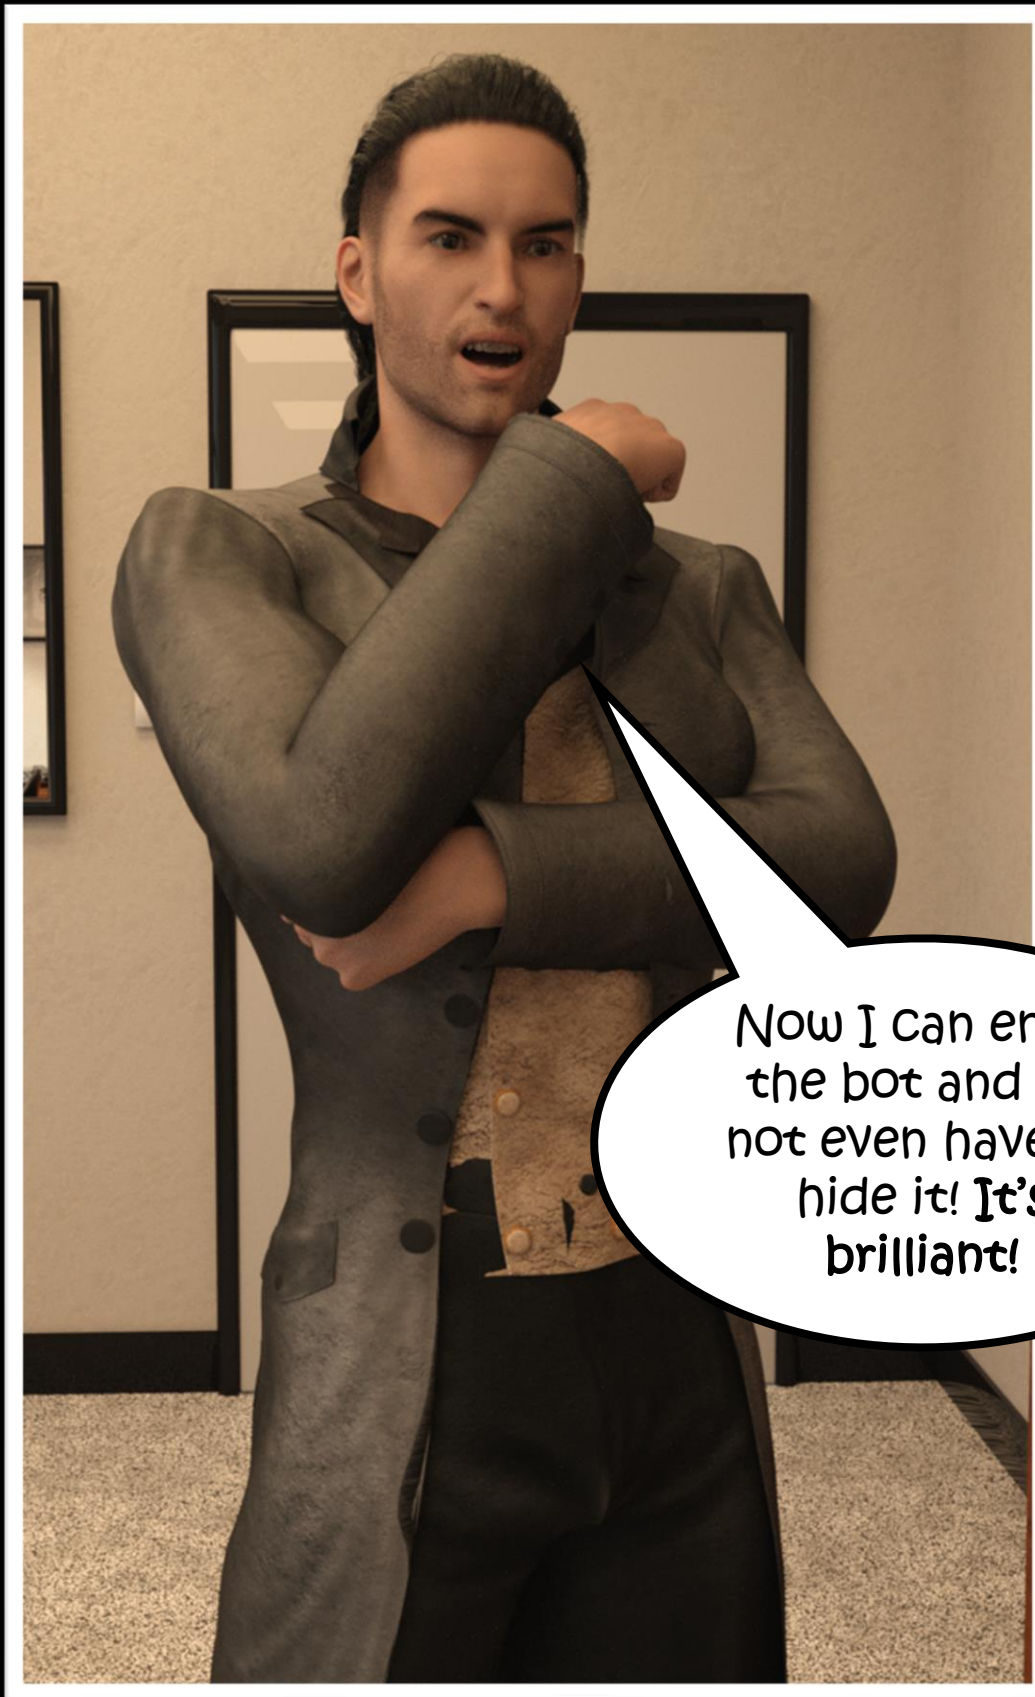

Against Amara's protest, the bot was bought by her parents and James went to the Factory the next day once again to bring the calibrated bot home.

Ha-ha!
I admit, I was
quite shocked.

And even more
astounded when
my wife suggested
taking her in.
Ha-ha!

Mr. Kalington.
I'm very sorry for
that unexpected
mishap during your
tour yesterday.

Now I can enjoy
the bot and do
not even have to
hide it! It's
brilliant!

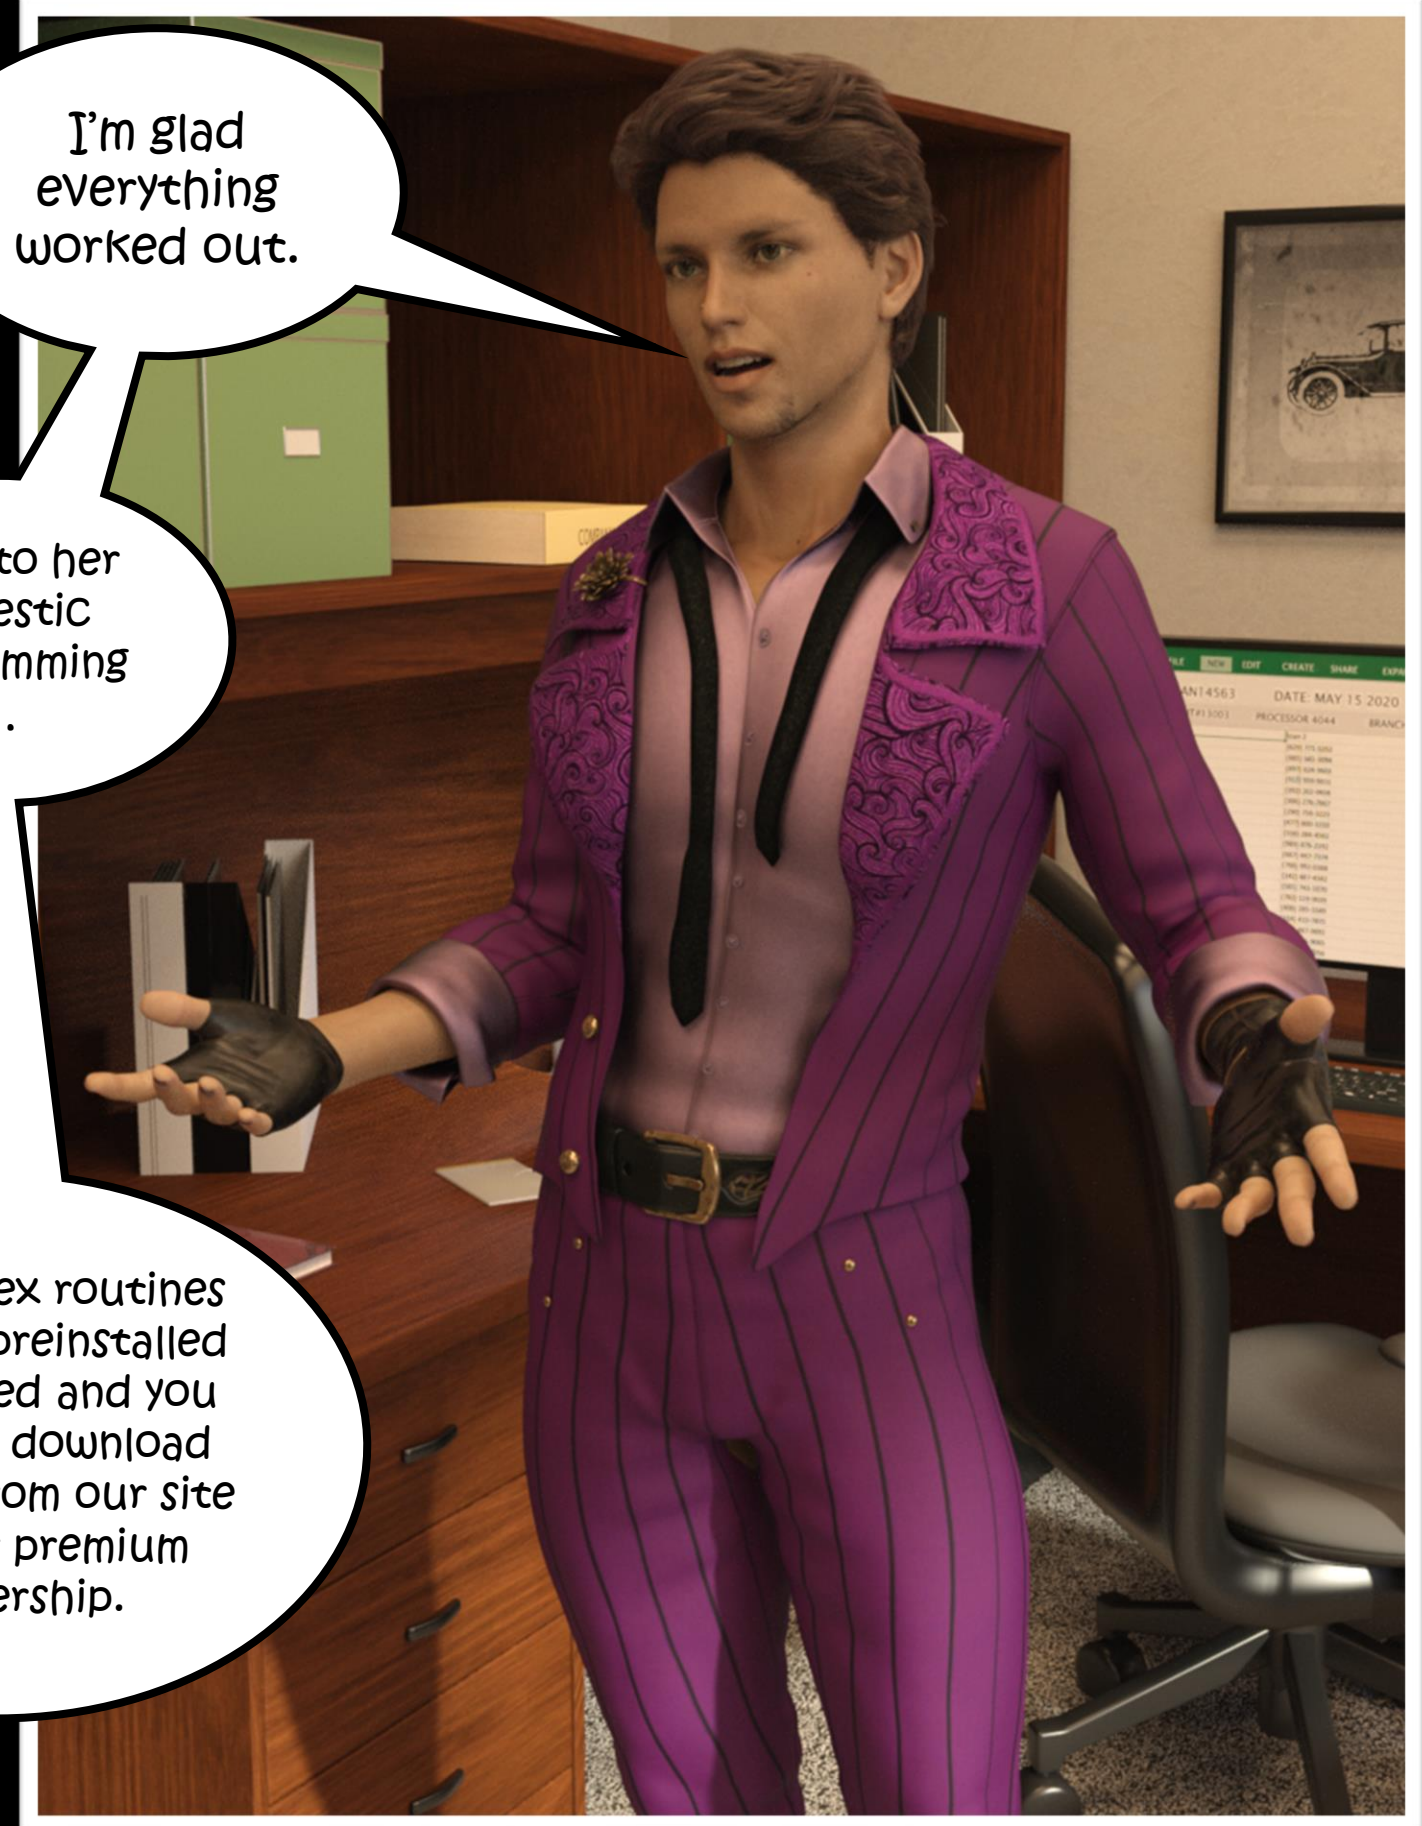

Standby
mode...

I'm glad
everything
worked out.

Next to her
domestic
programming
...

...Various sex routines
have been preinstalled
as requested and you
can always download
new ones from our site
with your premium
membership.

Amara's always such
a prim and proper
girl. But this bot...
will do **ANYTHING**
I ask of her!
Ha-ha-ha!

Oh, I'm looking
forward to that
programming.
chuckle

Pleasure doing
business, Mr.
Kalington.

And that's how a bot joined the Kalington's household. Of course, the family had to adapt a bit to this new situation. But in general, life got better.

Mrs. Kalington used the bot for household duties and as a waitress when she was hosting parties for her friends. **It was a blast!**

Mr. Kalington obviously used the bot for sexual gratification when nobody else was around. He could finally outlive his secret step-daughter fetish without harming anybody.

And Amara Kalington? Well, it's hard to believe, but with time even she found usage in a bot that looked like her...

Some weeks after
acquiring the bot...

Alright, bot! My
boyfriend's been
nagging me for a
blow job for
weeks now. 1

And it's his
birthday today.
But I think BJs
are yucky! 2

So, you will
blow him
instead. 3

Give your
boyfriend a
blowjob. Oui,
mademoiselle. 4

I've bought brown contact lenses.

You will wear them and act like me, so he thinks you are me.

Affirmative. Wear contacts. Act like you, mademoiselle.

Act like Amara Kalington...

Mademoiselle. May I suggest switching clothes? Also, you should act like me in the meantime.

Hm...
You are
right. Good
thinking!

I don't want
anybody to
notice.

Perfect.
Now nothing
can go wrong.
Off you go
bot.

Of course, bot.
I'll now give my
boyfriend a
blowjob.

You should go and
attend my step-dad
in the study. He has
requested bot
service for the
afternoon.

Mischivieous
smile

I am Amara
Kalington...

The End.

Thank you for reading!

Hello, Hexxet here,

I gotta admit, robots are not my primary focus when it comes to fetish stuff, but I think this commission turned out pretty nice 😊. I liked the commercial and info aspect of the tour and I think the bots turned out pretty hot. Also, the story around James and Amara has a funny twist and leaves some room for imagination 😊.

If you like my comics, please consider supporting me on Patreon or Gumroad by buying my work. I need your support to keep creating more Mind/Magic-Control comics! 😊
