Hello, dear viewers!

Boobtopia is a small one-town-nation and despite the lack of pasture areas they are not importing any milk products from outside.

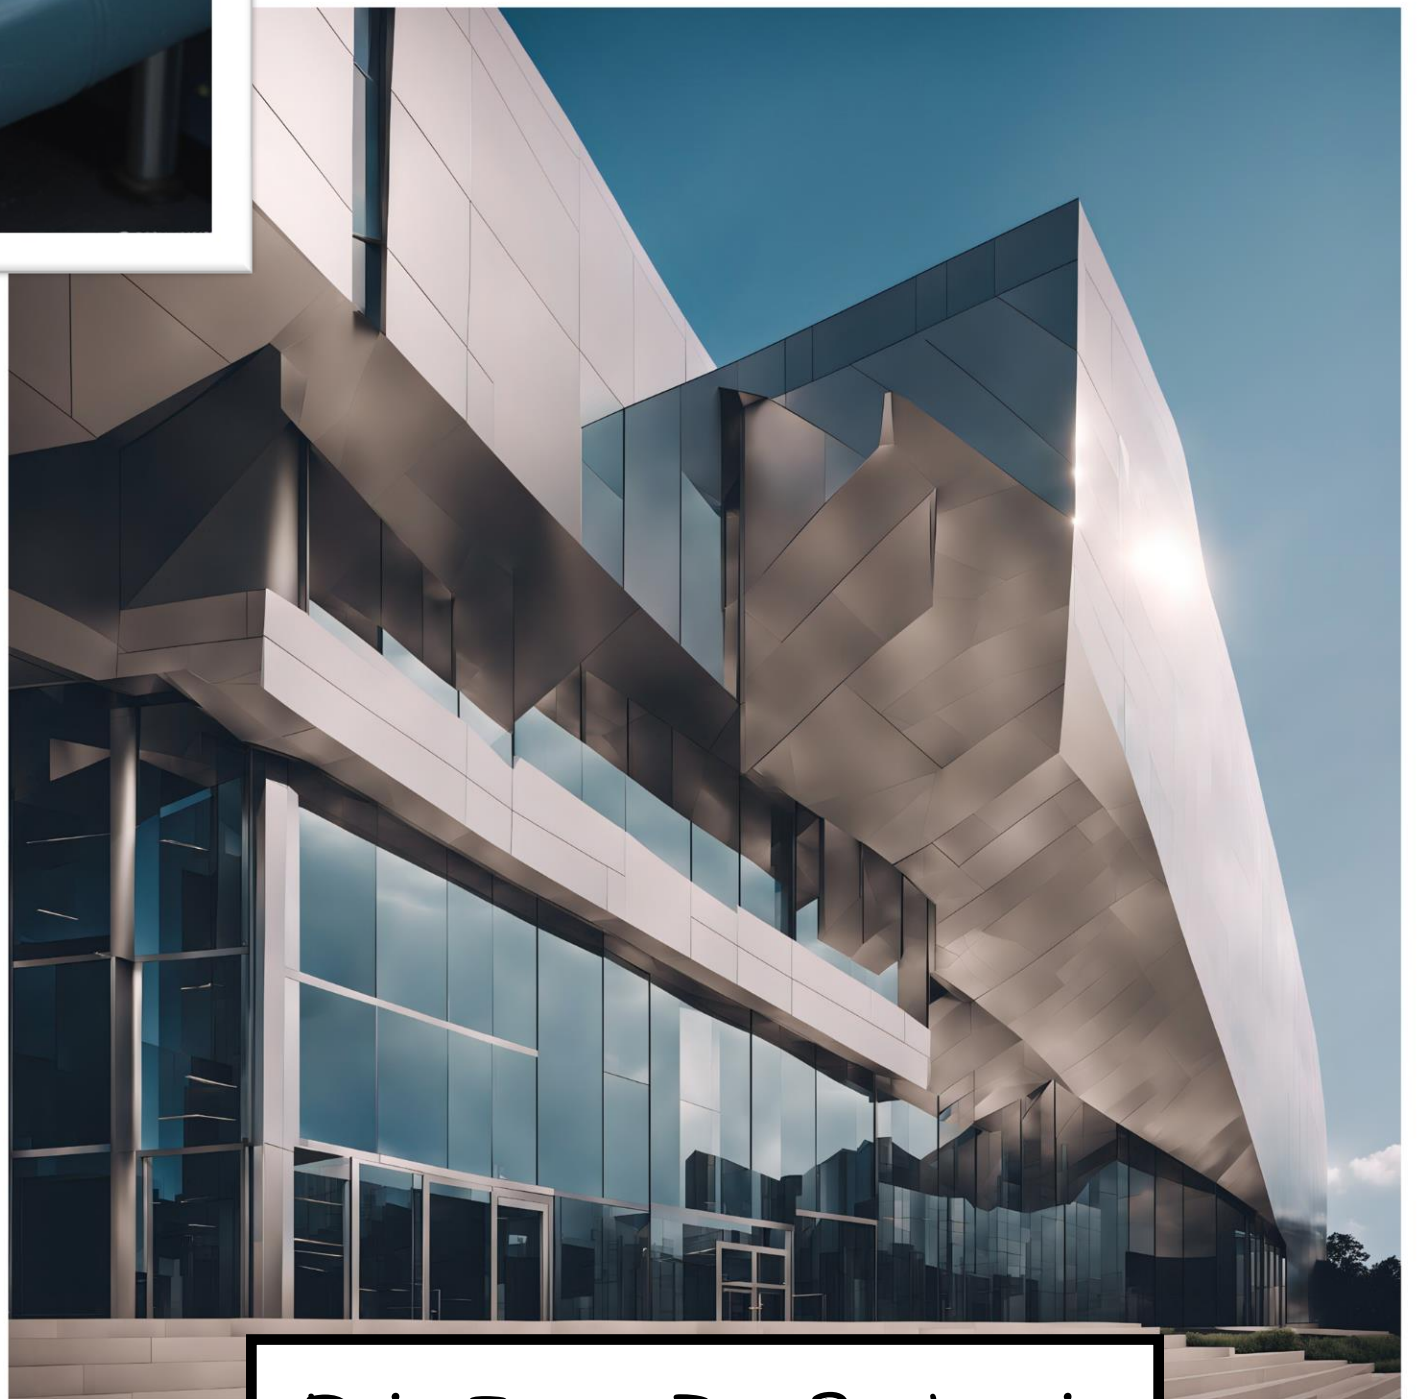

However, these products are available in abundance anyway!

Today my camera man Jimmy and I are on the bus to a Boobtopian Dairy farm to get to the bottom of this mystery!

Ah, I think we
have arrived.
Let's take a
look around,
Jimmy!

Dairy Farm – East Boobtopia

A woman with long dark hair, wearing a red blazer over a white lace-trimmed top and a black leather skirt, stands on a rooftop with a city skyline in the background. She has a surprised expression, looking upwards and to the left. She is leaning on a metal railing with both hands. Three speech bubbles are overlaid on the image, containing text that appears to be a conversation about a 'farm' and a 'science/lab complex building'.

Huh!

Okay, that's not
what I had expected
from the term
"farm"...

It's more like some
huge science/lab
complex building...

Miss Fortune,
let's go inside.
We are already
a bit late...

As we enter the high-tech complex, we are greeted by a blonde woman in a labcoat.

Ah, you must be Miss. Fortune, the reporter?

Yup, that's me.

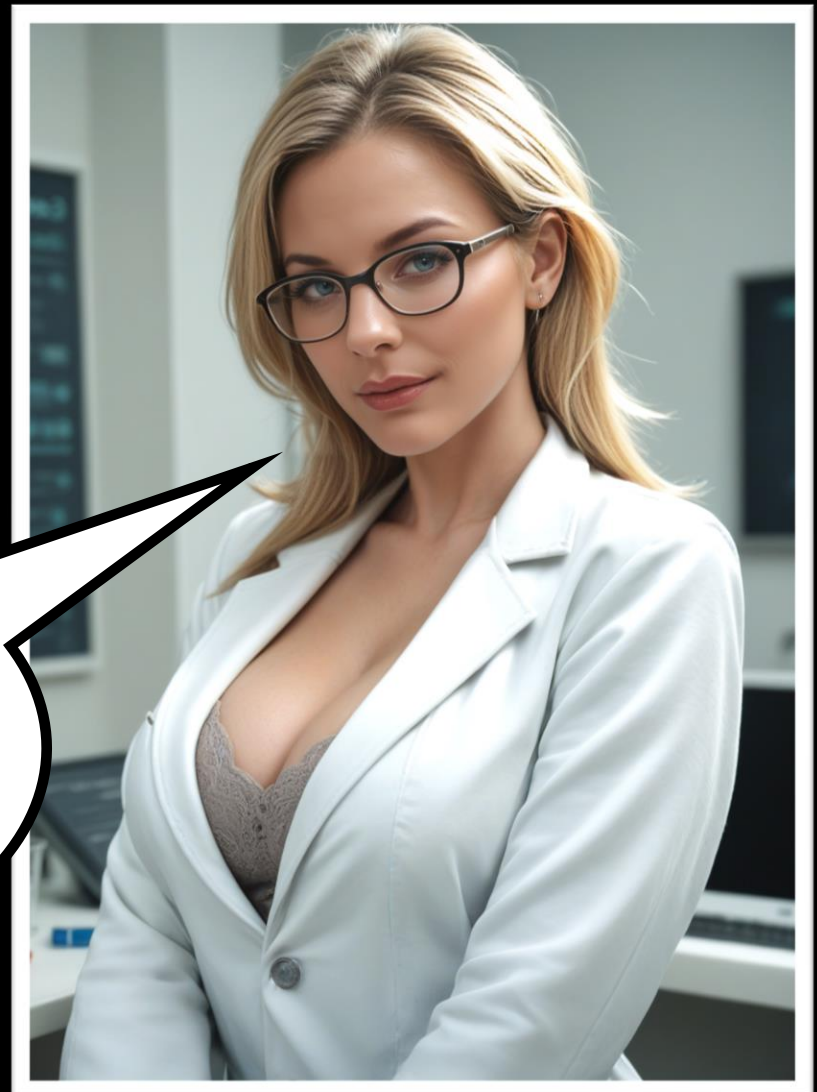

Pleased to meet you. I'm Dr. Erhard. I'll show you around.

The friendly doctor leads us to a spacious lab room with various gadgets...

This is my lab.
Here we mainly
test new flavors.

In a corner of the lab, several women gossip with one another as... their breasts are being milked by a machine emitting a dull sucking sound!

They seem to be fine with me filming so I take some shots of them for the documentary.

Do you have
any questions
to start?

So many!
First... Why
no cows?

Well...*chuckle*,
on the one hand,
it's easier to
produce.

Thanks to our
specialized boob
benders a human
woman can give
around 40 liters of
top-rated milk ...
per hour.

And we can adjust
the flavor as well
without adding
any outside
ingredients!

A woman with blonde hair and glasses, wearing a white lab coat over a dark blue top, stands in a laboratory. She is holding a glass jar filled with milk. In the background, there are shelves with various bottles and laboratory equipment. Two speech bubbles are present on the right side of the image.

On the other
hand, just think
of the ethical
aspect.

Why drink away some
baby animal's source
of food when there
is plenty of this going
around?

But... these women. Who are they?

Excuse the question... but why are they doing this? Isn't this demeaning? Being reduced to a mere milk dispenser?

These are of course our precious dairy girls. The heart of our production line.

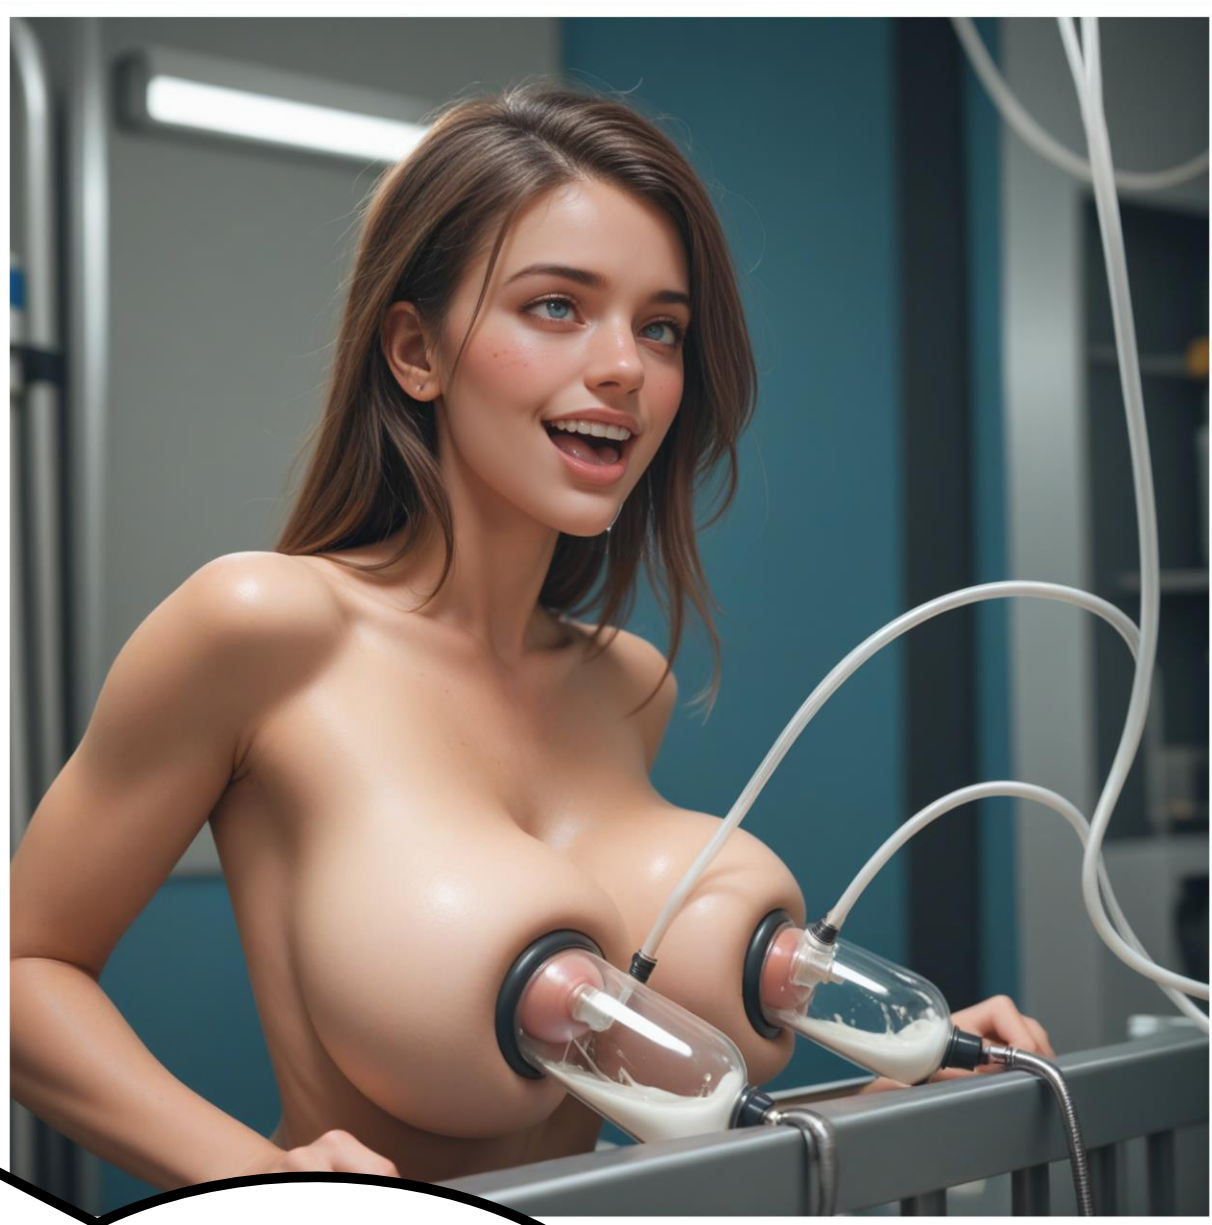

Err... for once they are getting paid?

Oh, fuck, yes!

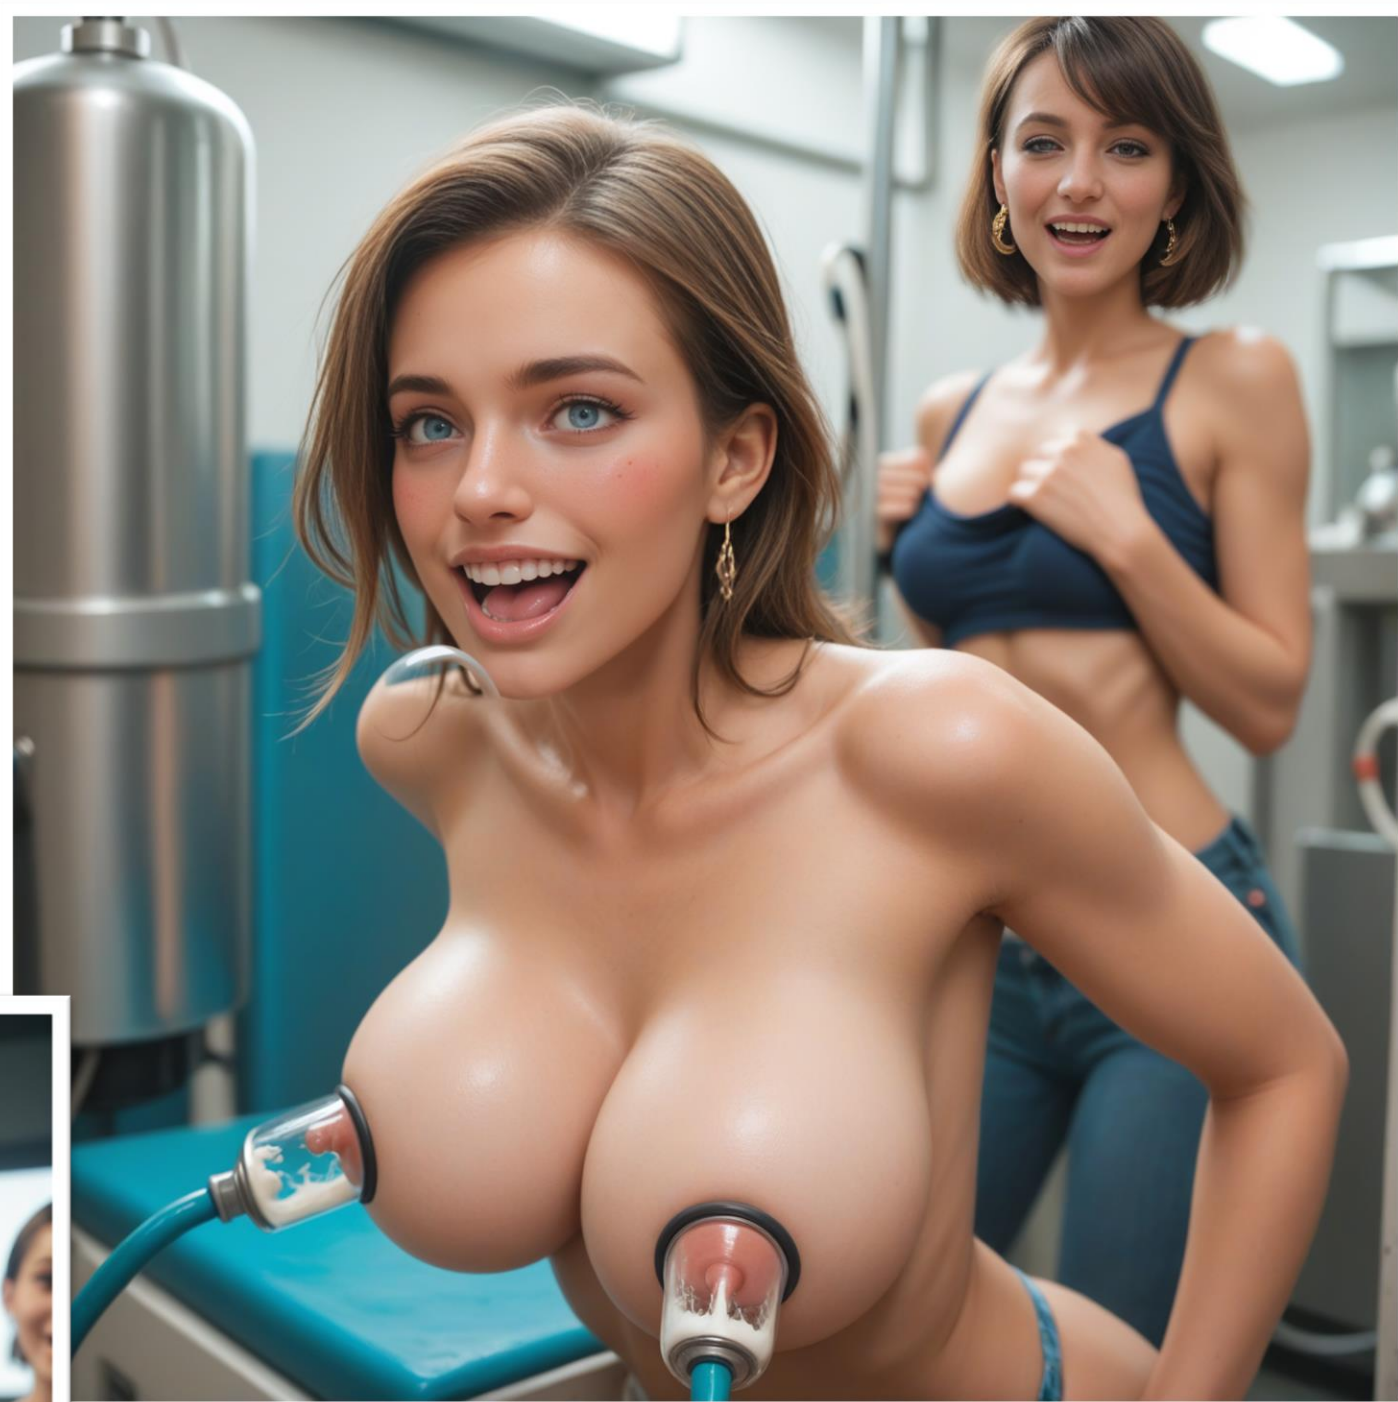

I assure you, being a dairy girl is a very respected job in our society.

And also, the milking process is very pleasurable.

Fascinating... And like this, you can produce enough milk for the whole population?

Well... no. Our professional dairy girls can deliver about 50% of the supply needed.

A woman with blonde hair tied in a ponytail, wearing a white lab coat with a matching belt, is walking away from the camera in a laboratory. She is looking back over her shoulder. The lab coat has a small blue circular logo on the back of the belt. To her left are white shelves with various laboratory glassware, including beakers and bottles, some containing blue liquid. A blue and black storage box is on the bottom shelf. The background shows a clean, modern laboratory with white cabinets and a tiled floor.

In order to supply
our whole city
with precious milk
we are dependent
on so called
freelancers.

Please
follow me.

This is a so-called
“white room”. All
surfaces in here
are easily
washable.

Why is that
important?

Well... The usage of
our machines takes
some enrollment time.
Their application is
beyond knowledge for
amateurs.

Therefore, we
have freelancers
milk themselves
here in this room.

And
that... Can
get messy.

A woman with blonde hair and glasses, wearing a white lab coat over a dark blue top, stands in a laboratory. She is holding a glass jar filled with milk. In the background, there are shelves with more jars of milk and a computer monitor. Three speech bubbles are overlaid on the image, containing text about freelancers, Boobtopian women, and milk production.

Okay... and
why are these
freelancers
volunteering
to do that?

Many Boobtopian
women want to
supply their families
with their own
breast milk.

But constant high
milk production
interferes with day-
to-day work. That's
where we come into
play.

Women come to us...

Have one of our
benders expand their
breasts to a more fitting
size if necessary...

giggle
They tingle.

A large, white speech bubble with a black outline is centered on the page. It has a tail pointing towards the bottom right corner. Inside the bubble, the text is written in a black, handwritten-style font. The text is arranged in four lines: 'Woopsie!', 'This size always', 'gets me out of', and 'balance for a', followed by 'moment! *giggle*' on the final line. The background of the entire image is a blurred, light blue-grey color, suggesting an indoor setting with shelves or a wall.

Woopsie!
This size always
gets me out of
balance for a
moment! *giggle*

Then one of our specialized milk benders enhances them further with a flavor of their choice.

Thank you for your service, Mr. Milk Bender!

After that they can
let loose in one of
the white rooms and
milk themselves...

Milk is collected
from the walls, and
special collection
basins – not from
the floor... so to
avoid mixture with
vaginal fluids.

Now, they can
either pay for this
service or they can
pay in milk.

Moan

For every 10 liters
gathered, they can
take one liter home.

Cumming!

Again, our Benders are taught to enhance erotic breast sensitivity such that the milking process becomes very pleasurable. Most women tend to pay in milk just for the fun of it, since that way the milking process takes longer.

Then, once they are done milking, usually after an hour or two, they happily leave with their bottled-up milk in a basket.

I love going to the dairy farm cause here I know where the milk comes from!

Is that allowed?

We currently have several freelancers in white rooms. Would you like film some?

Sure! It's in the fine print that we film this, and they all had to sign the ToS.

No one reads the ToS!

moan

As you can see, as the milk squirts from her nipples, she's in an extreme state of ecstasy.

We provide bottles and containers in the white rooms and many freelancers try to use them...

But aiming milk squirts
while orgasming is not
that easy...

Here's another one!
She has given up aiming
and is just bending
over one of the
collection basins.

Jimmy!
Are you
getting all of
this?

Stimulation is ramped up
so much, most of our
freelancers have a
squirting orgasm at least
once during their milking.

Moan

Yes, Ma'am!
I'm filming this
in full HD.

And that's really all
there is about our
little dairy farm.

Would you
maybe like to
try yourself?

You mean...
me as a
freelancer?

Of course!
You are a women in
your prime. We'd love
to harvest your milk
for you.

Miss Fortune was more than eager to test the process for our viewers and I was holding the camera steady!

Jimmy, camera on me. We need the ratings!

Yes, Ma'am!

Alright. Let's get these babies growing again!

Nice!

And there they
are back at my
favorite size!
giggle

A woman with long dark hair, wearing a black skirt and large hoop earrings, stands in a classroom. She has very large, prominent breasts. In the background, there is a chalkboard with some writing and a desk with a computer monitor. The scene is lit with bright, natural light from a window on the right.

Okay... these
feel quite
heavy...

A breast bender
guides Miss Fortune
through the process...
man... I wish I had
such powers...

They might feel a
little uncomfortable
now ma'am but we
need the space or
milk production.

And I assure you,
they will feel
awesome once you
play with them in
the white room.

Inducing milk
production
now, Ma'am.

This might
tingle a bit.

Okay.
giggle

Oh, wow.
I've never felt
this full!

Please follow
me to the white
room, ma'am.

A woman with long dark hair, wearing gold hoop earrings and a thin necklace, is shown from the chest up. She has very large, prominent breasts. White, milk-like liquid is dripping from both nipples. She is looking directly at the camera with a slight smile. The background is a simple indoor setting with a window and curtains.

White room
sealed. You may
begin now,
Ma'am.

Alright, let's
get this party
started!

Don't stop
filming,
Jimmy!

gulp
Yes, Ma'am!

Softly Miss Fortunes
starts to squeeze her
breasts and milk starts
shooting out immediately!

A woman with long dark hair and large, prominent breasts is shown from the waist up. She is wearing a black, shiny, form-fitting skirt. She is smiling and looking towards the camera. Her breasts are extremely large and rounded. She is holding her nipples, and milk is squirting out from both. The background is a simple white wall with a door.

I try my best to not get any milk squirts on the lense as I keep the camera pinned on her milkers.

Oh, my!
It's just
flowing out
of me!

I Can't
stop it!

Oh, god!
It feels
soo good!

Moan

I...
I'm...

I'm gonna
squirt!

I took several hours
of footage of Miss
Fortune's milking
session...

Moan

Of course, only a
fraction would make it
into the final cut of the
documentation...

The rest would go to
my private collection...

moan

But any good
milking session
cums to an end...

I hope you
enjoyed the
experience!

Miss Fortune walked out a happy woman – carrying a basket of her own milk in hand.

Paws of my bottles, Jimmy!

These will be raffled among my most loyal viewers!

Hello, Hexxet here,
I hope you liked this milk-focused
chapter. Would you try some Fortune
milk? 😊

For the future, I plan to stay one more
chapter in Boobtopia (or leave
Boobtopia in that chapter) and I'll
probably need one more chapter to
tie the story up. So, I guess there will
be two more Boobbender/Boobtopia
chapters before "The last Boob
Bender"-Series finally reaches its end.

More PAls and of course my regular 3D
Comics can be found on my Patreon and
in my shops. (If you are only into the
PAls you probably want to visit the
shops, not the Patreon). Some free PAls
can be found on my homepage.

Here are some pinup-
pix that did not make
it into the story...

Aiming your milk
squirts while
shuttering from
intense orgasm
really wasn't that
easy... especially
with tits she was
not familiar with!

Moan

Mhhh...
Strawberry
flavored!

Fortune
milk, now
available!

Tune in on my
show and if you are
lucky one of these
bottles might be
sent to you!

Need the
extra portion
of milk?

And some more pix of
our freelancers in the
white rooms 😊.
