Heeeello, fellow Deviants!

This is my very first "test" story made during my first week of discovering the wonders of AI-generated content, thanks to Hexxet-Sensei. And of course, it's about bimbofication. I love that. A lot!

It is a tribute to a lot of things, but mostly Coinflip work with a hint of Kansen hentai game series.

As a test story, it's full of rookie mistakes, but I'm confident I'll get better in the future. I hope you liked it either way.

Stay tuned for the next chapter! One day.. Maybe..
