

A Hexxet's Comics Original
LEXI 18
Biology Lesson

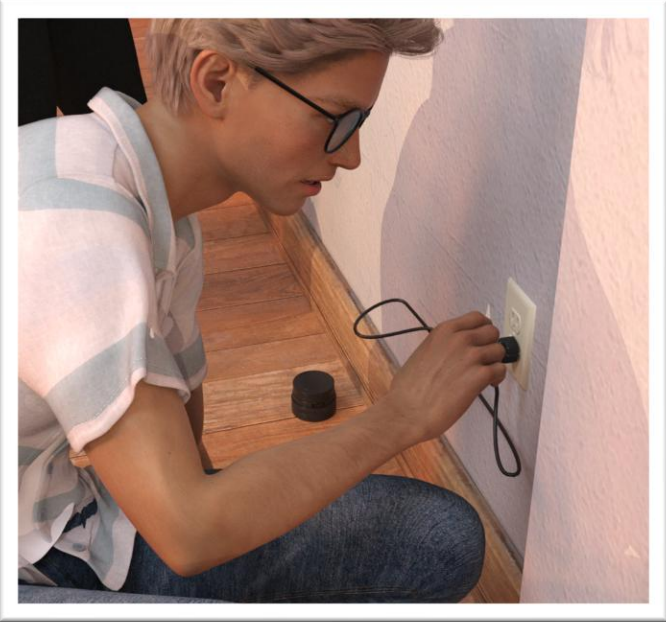

Affirmative.
Enlargement
in progress...

~70 Pages

Previously on LEXI, we saw
Mika bring LEXI to school and
plug her in in his classroom!

LEXI
online.

And change the subject
of today's lesson.

Finally, after some minor inconveniences, Mika changes the lesson to “Human Reproduction”

Topic for today: **Human reproduction.**

We will start by exploring the female body.

Thank you for coming to the front, Hanna.

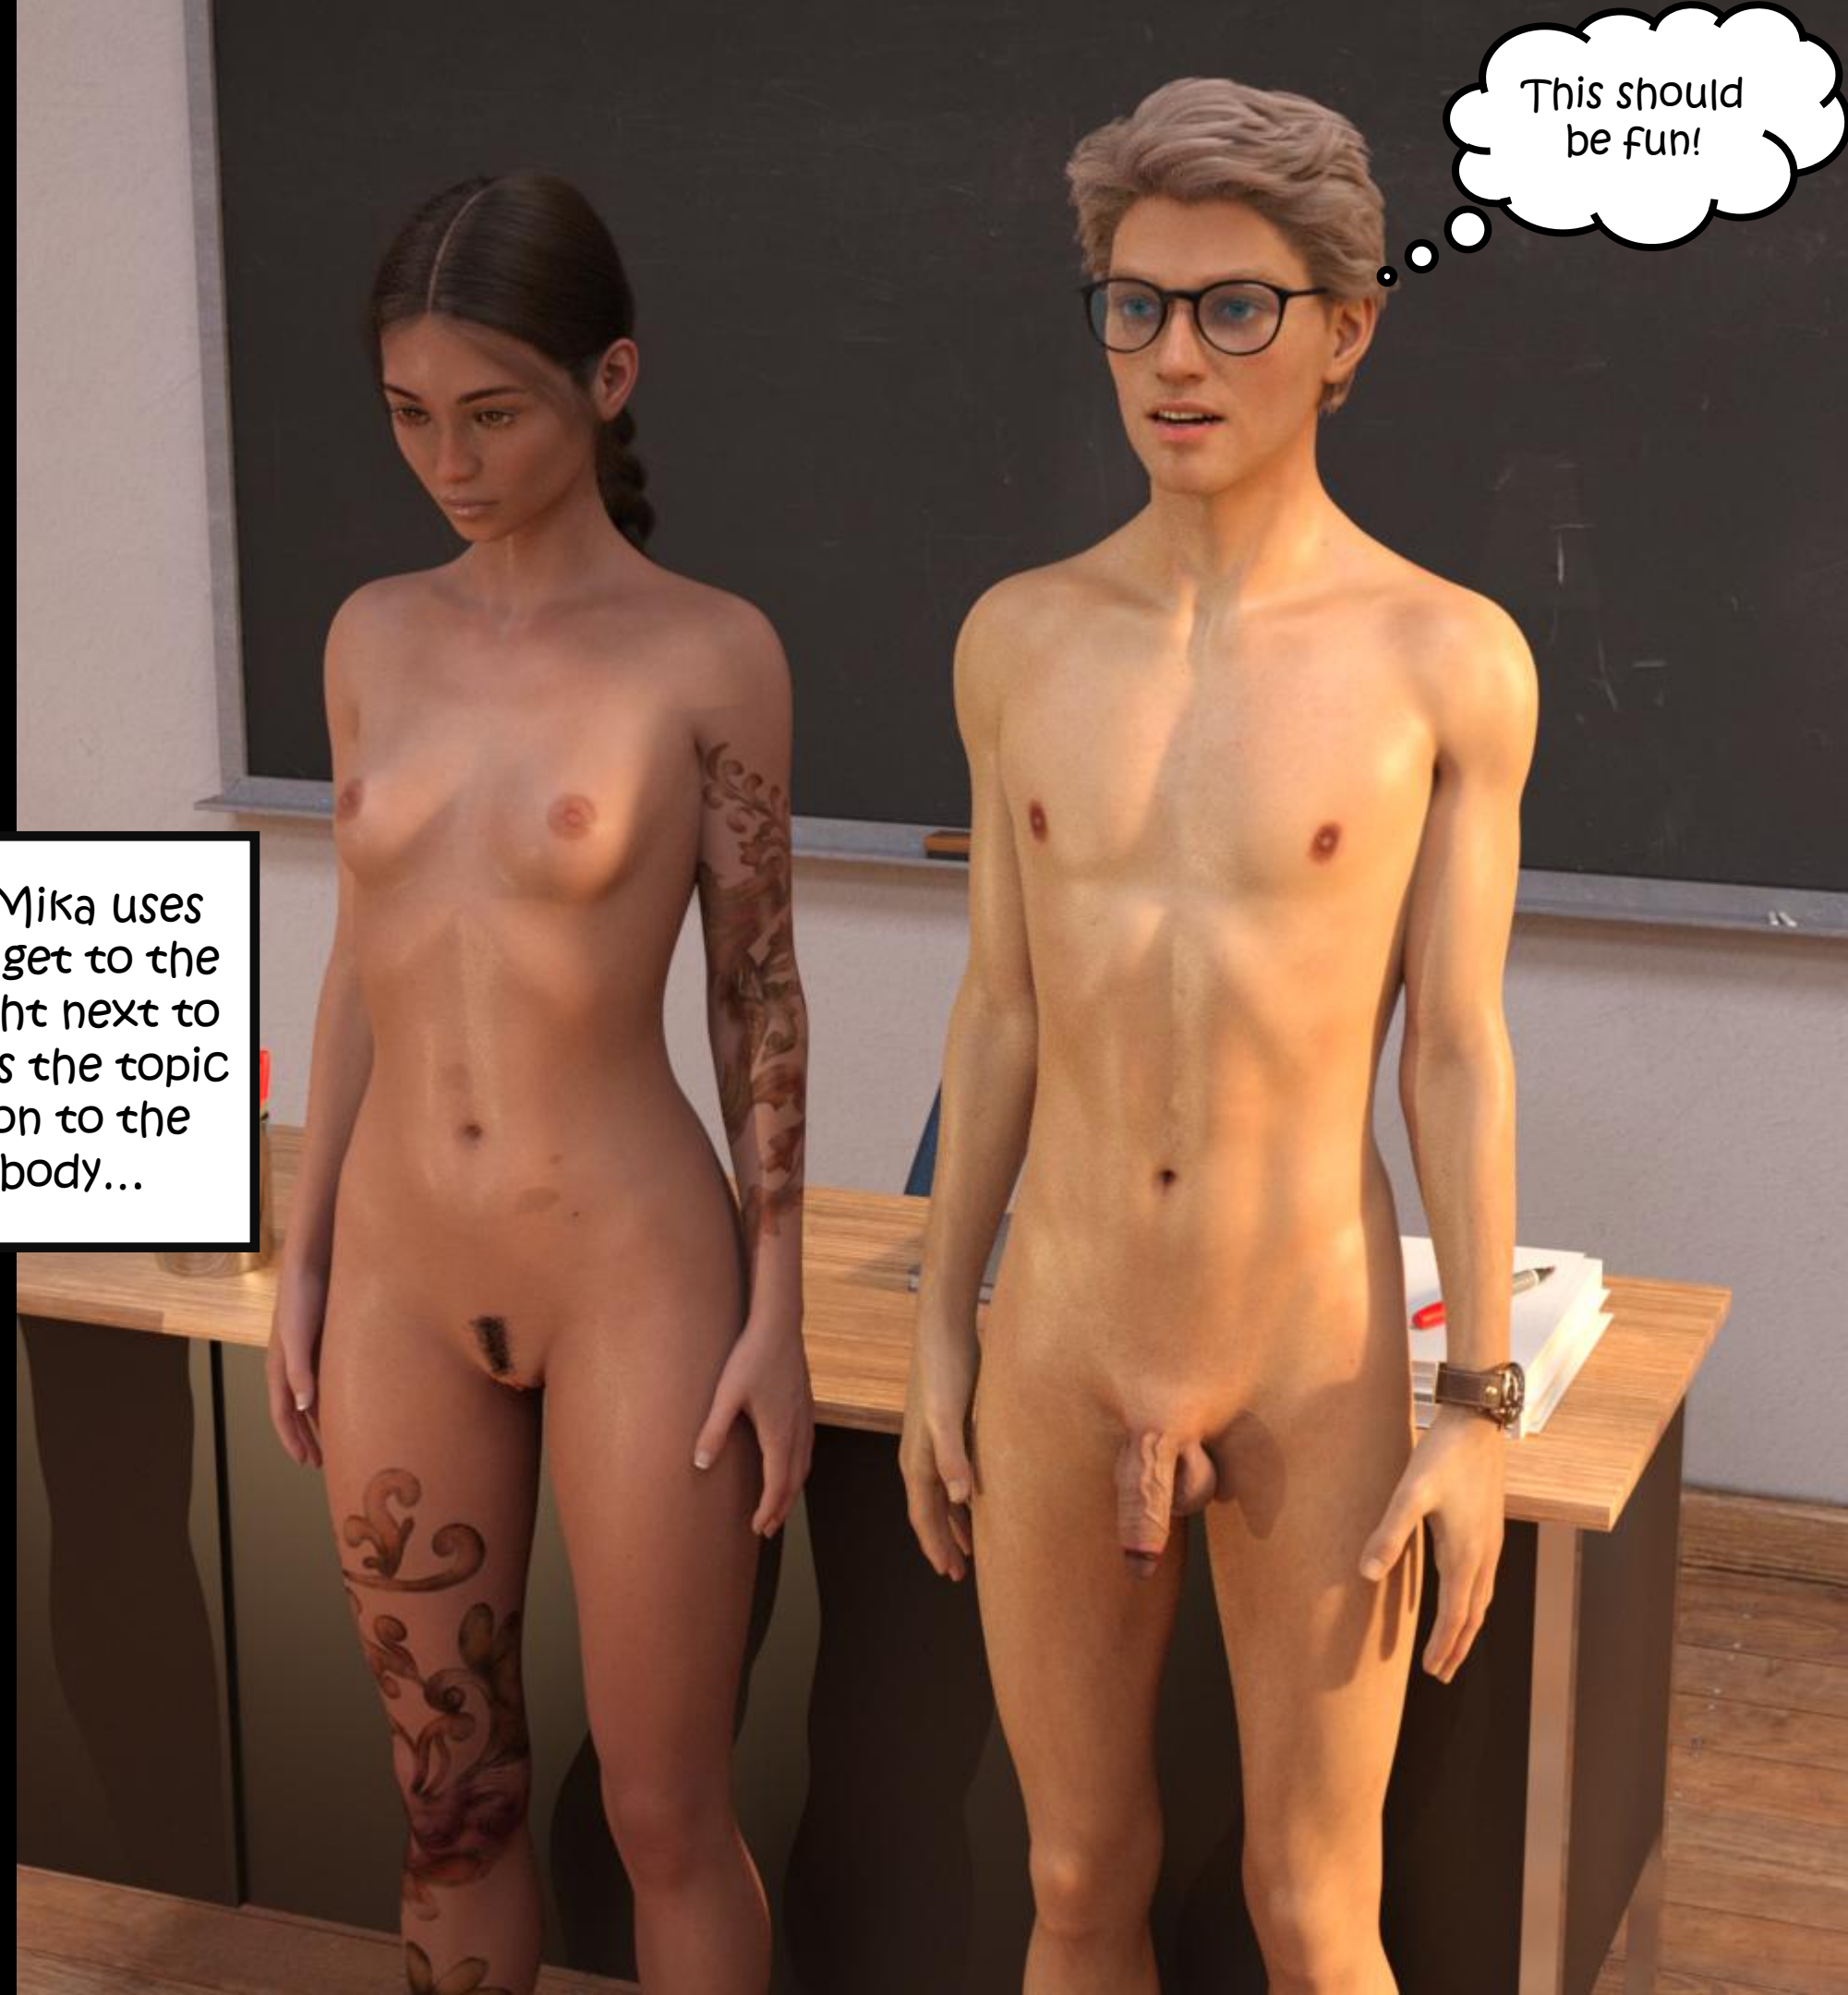

No, not that boring talk about the flowers and the bees!

Afer all, it's normal in 18+ Classes for this subject to be taught by using the students as teaching props.

Females have a different distribution of body fat with accumulations mainly in the hips, thighs, and buttocks.

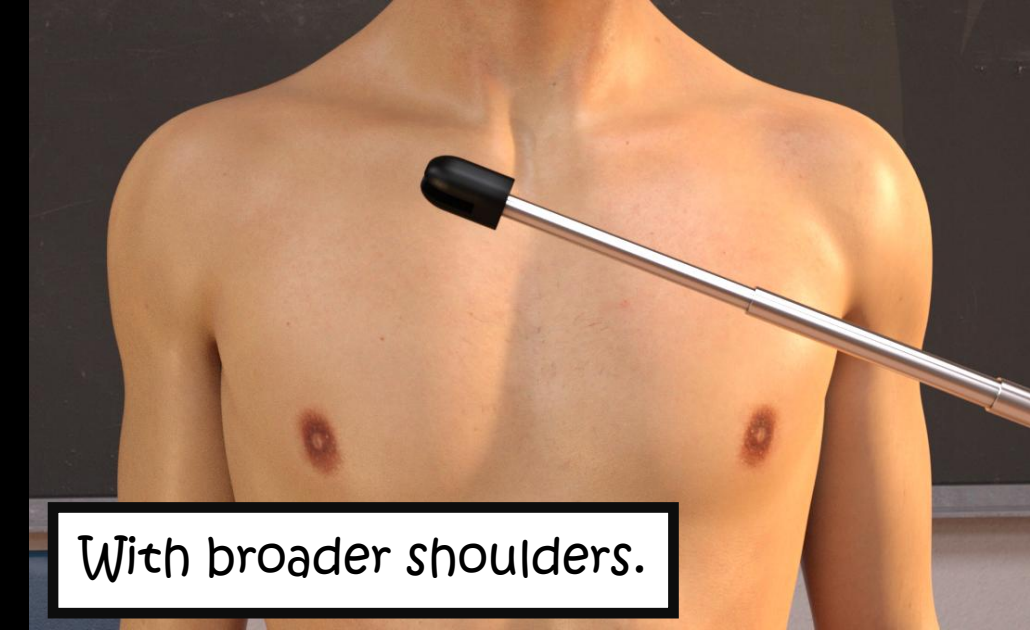

Finally, Mika uses [LEXI] to get to the front right next to Hanna, as the topic moves on to the male body...

This should be fun!

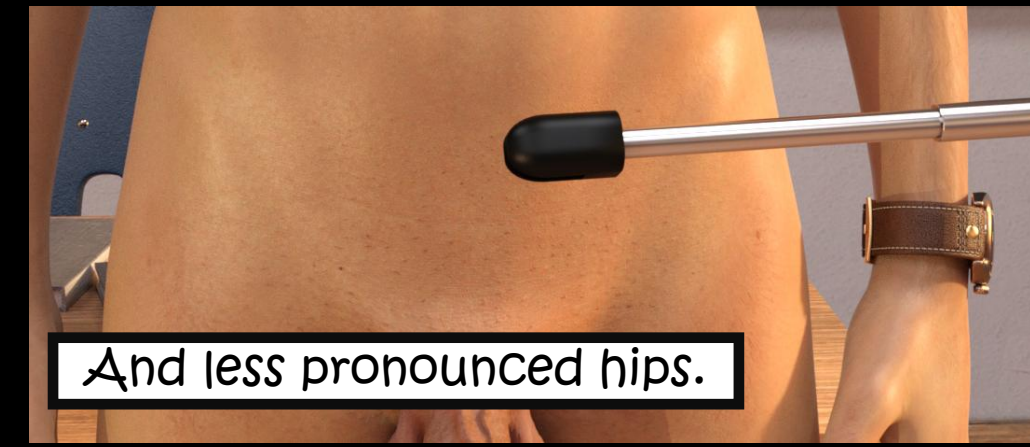

Usually, males
tend to be
taller.

With broader shoulders.

More muscles.

And less pronounced hips.

Also of
course,
instead of
a vagina,
there is the
penis.

Now, in its flaccid form, a penis is usually small and not very impressive.

No offense, Mika.

But when excited, it can totally go Super Saiyan!

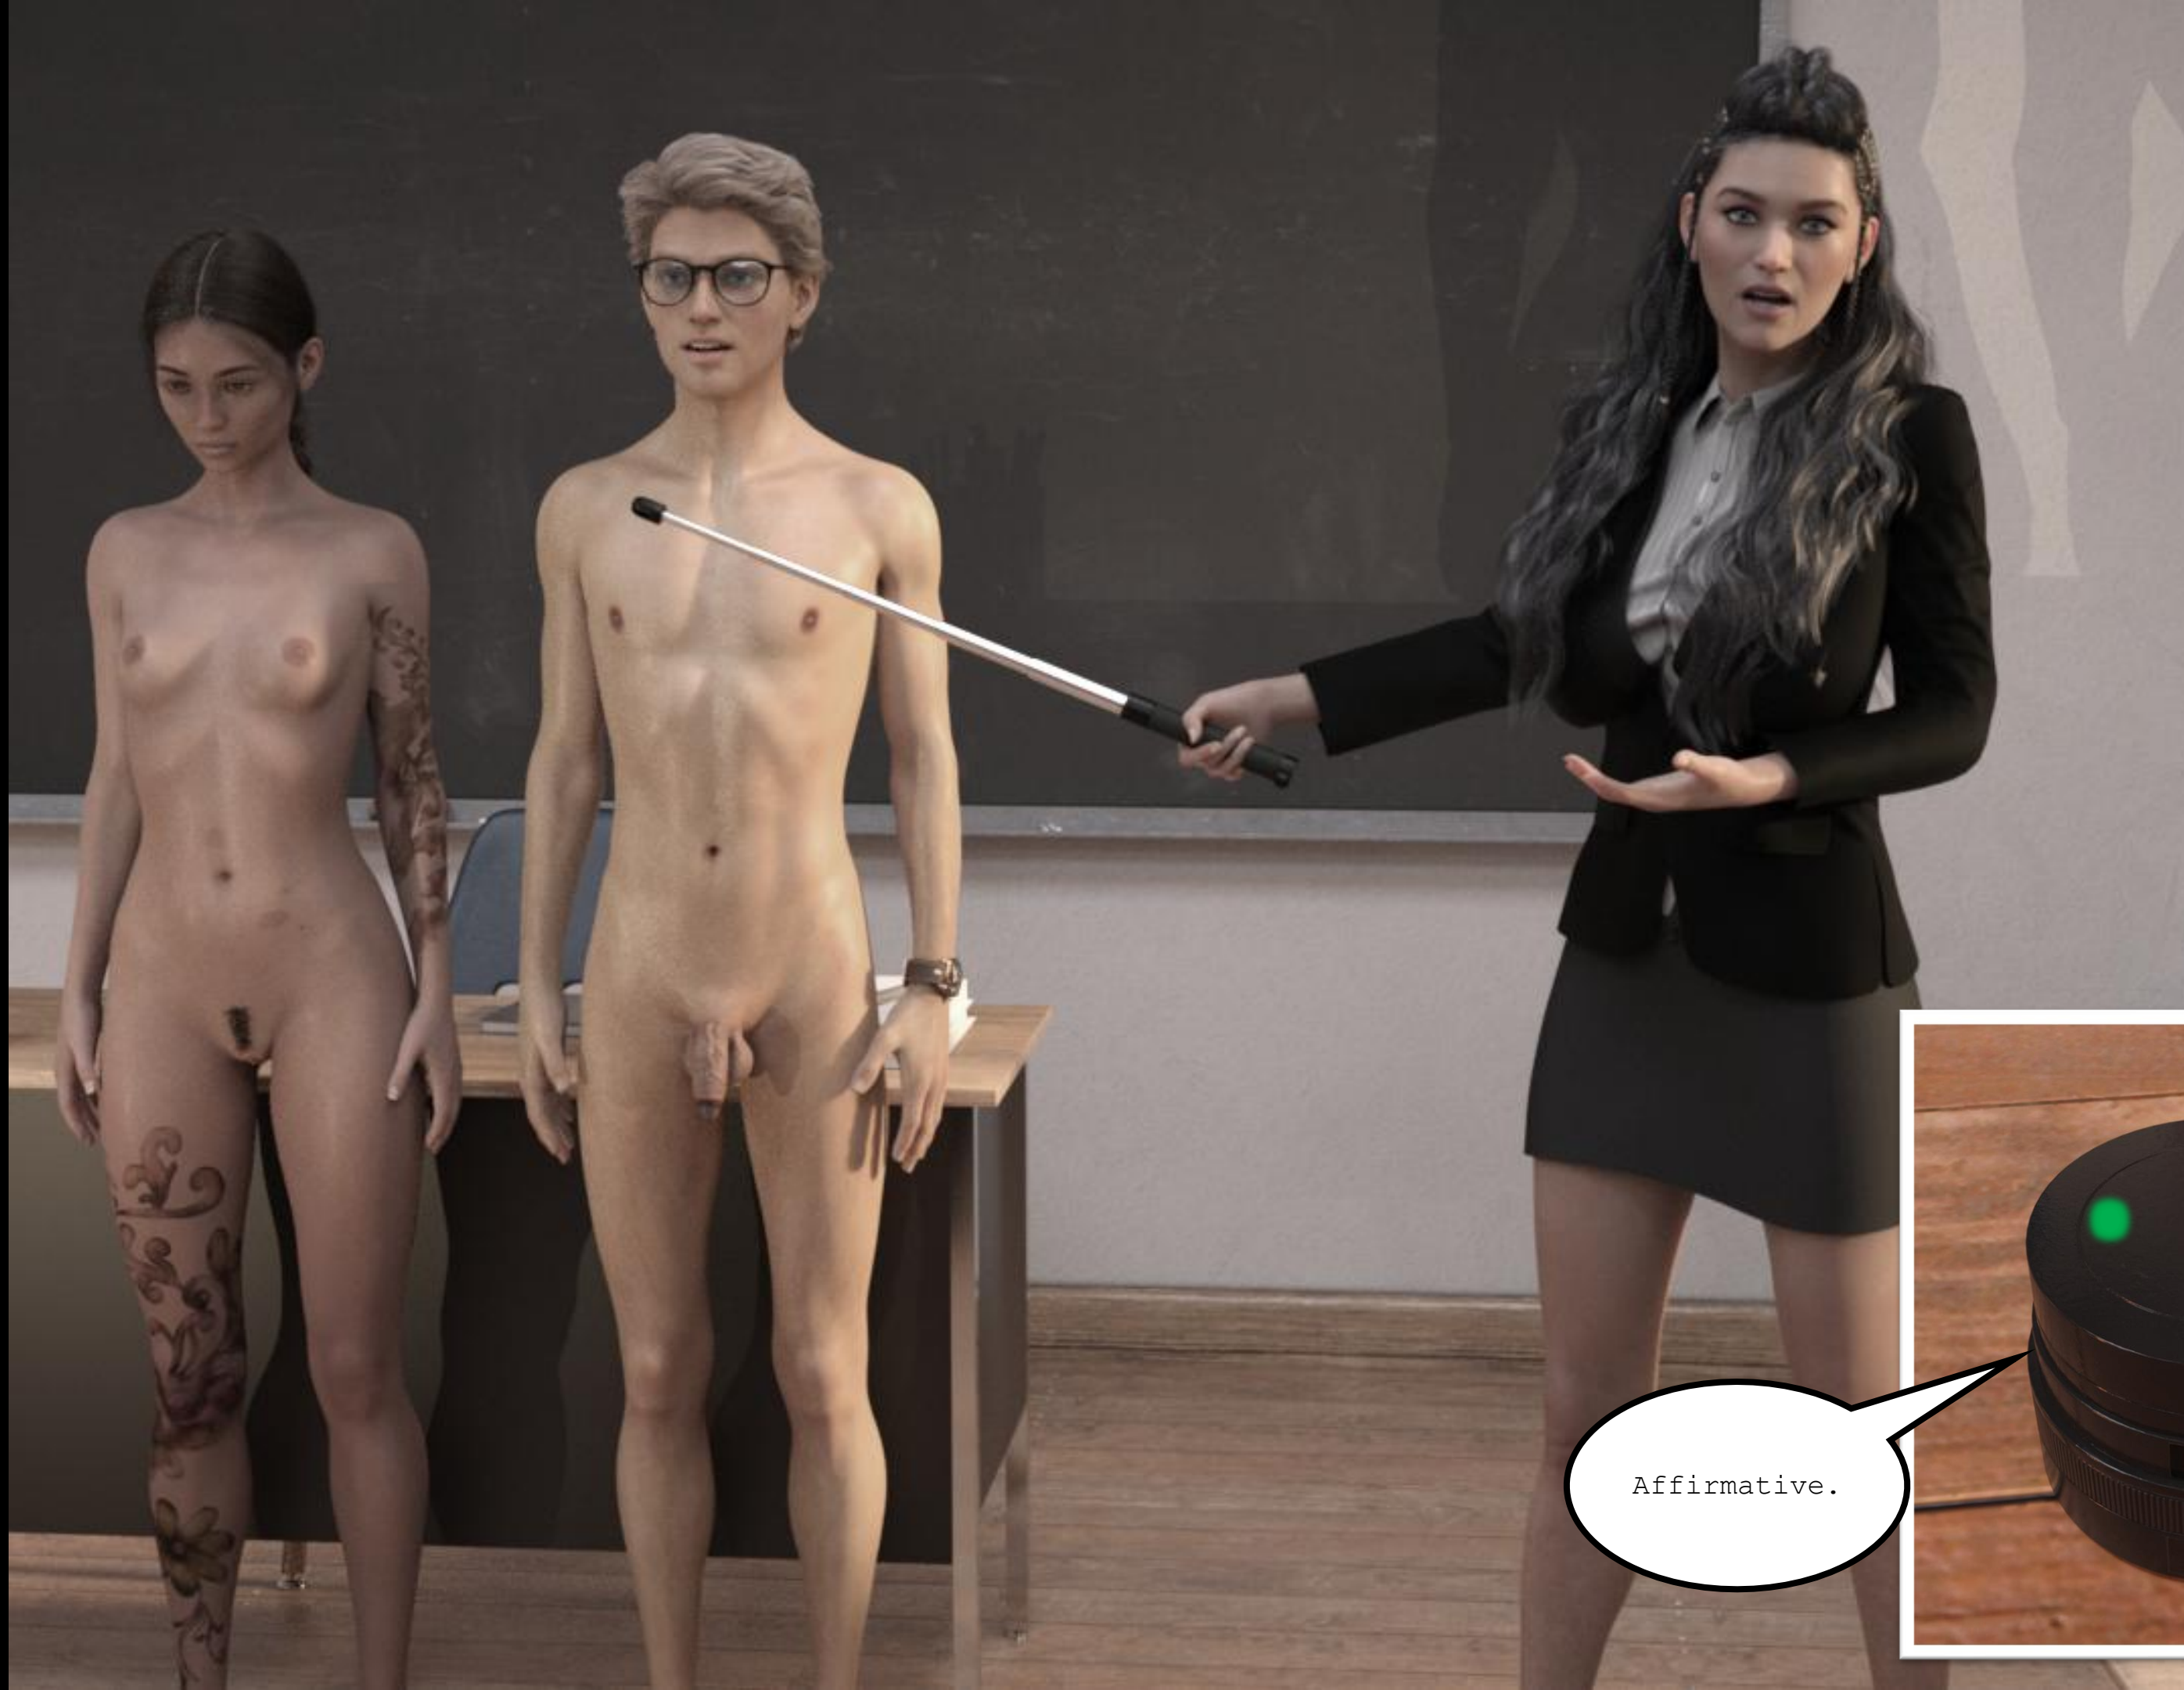

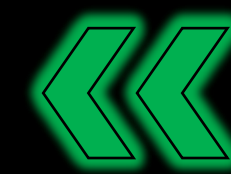

LEXI, rewind time by 20 seconds and make my cock really big.

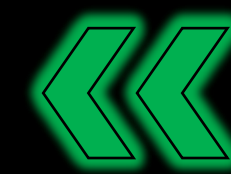

None taken...

Affirmative.

Turning back
time...

Target size
reached. Restarting
time...

Now, in its flaccid form, a penis is usually small and not very impressive.

Though, wow. Mika here is really well endowed.

End of Teaser.

Hello, Hexxet here,

How will the lesson go from here? And how big will Mika's best piece be when full mast? Will Hanna be able to handle it for the sake of the lesson?
